EXPLANATION.

In connection with the San Francisco Street Number Guide consult the Street Car Routes—(pages 536 to 540), giving first and last cars and notes regarding issuing and receiving transfers. On the following lines ask conductor for transfers when settling fare; for street cars to any number see pages 512 to 582.

According to the method adopted for numbering buildings, Market Street is the starting point for numbers on all streets running from it in a northerly direction, and the water front for all street running therefrom in a westerly or southwesterly direction.

On all streets between water front and Presidio Ave. the even numbers are on the right-hand side and odd numbers on the left-hand side. Beyond Presidio Av. most of the streets have been numbered in a contrary manner. One hundred numbers are allotted to each block bounded by main streets.

In the streets numbered with a dash (—), it is indicates that the cross street does not extend to that side; (o) the street borders on the bay, or public park, cemetery, etc., consequently there are no buildings on blocks thus designated; (c) the street is not opened through the block; (e) end of street.
