INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., publishers of the Hayward City Directory, as well as more than 1,000 other city, county, state and national directories, present to subscribers and the general public, this, the 1962 edition of the Hayward City Directory.

Confidence in the growth of Hayward's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Hayward to the world.

The enviable place occupied by R. L. POLK & CO.'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Hayward City Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The five major departments are arranged in the following order:-

I. **THE BUYERS GUIDE** constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Hayward. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Hayward, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory Service.

II. THE CLASSIFIED BUSINESS DIRECTORY is the second major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the third major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Hayward and vicinity, and the name, official personnel, nature and address of each firm and corporation.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the fourth major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A special feature of this section is the designation of tenant-owned homes. Telephone numbers as supplied to us on canvass are shown opposite the name.

V. THE NUMERICAL TELEPHONE DIRECTORY is the fifth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Hayward, for business men, everywhere, realize that the city directory represents a community as it really is.

The Directory Library

Through the courtesy of the publishers of the Hayward Directory, a Directory Library is maintained in the offices of the Chamber of Commerce for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

HISTORICAL REVIEW

When the Spanish padres founded Mission San Jose in 1797, what is now Hayward Area was all set aside as the Mission's grazing land. In 1834 the Mexican congress opened up this territory to settlement by Mexican rancheros, mostly from the Pueblo of San Jose and from the Presidio of San Francisco.

By 1838 Don Guillermo Castro had started to build his hacienda, ranch-sheds and corrals at the present location of the Hayward City Hall and Plaza. At the same time, the Estudillos settled at San Lorenzo and the Sotos in the Mt. Eden-San Lorenzo section. Until the American occupation of California in 1846 Don Guillermo Castro was the largest stock raiser on the east side of San Francisco Bay, killing as many as 4,000 cattle yearly for hides and tallow.

In 1851, during the gold rush, William Hayward came to the Castro Ranch. At the invitation of Don Guillermo Castro he moved to the present corner of A and Main streets, where he started a general merchandise store in a tent. A small hotel and restaurant were added, which eventually grew into the Hayward Hotel.

Don Guillermo Castro divided his rancho into tracts in 1852 and began selling town lots around his hacienda. He donated lots for schools and other public uses and began plotting the town. The City of Hayward was incorporated on March 11, 1876.

The first railroad, which was promoted by F. D. Atherton and A. A. Cohen, reached Hayward in 1865. At the same time, Mr. Atherton with Mr. William Gorgan of San Francisco, bought up the rest of the Castro lands, to which they invited hundreds of immigrants. With the Area opened up for settlement, its population increased year by year, until it is the fastest growing area in the East Bay district.

City of Gardens and Homes

Hayward stands at the cross-roads of Alameda County with four great state highways, fast bus and rail transportation, and bridges across the San Francisco Bay, bringing it within a few minutes of centers comprising the Metropolitan Bay Area.

Recognized as the major shopping center of Southern Alameda County, Hayward is situated close to the shores of San Francisco Bay and extends back into rolling foothills and fertile valleys. It is both a city of homes and industries.

Ideally located in the East Bay District, it is singularly free from fogs and cold winds. The pleasantly mild, salubrious climate makes living ideal, and many thousands who find employment in Oakland and San Francisco have established homes in Hayward.

Recreation

The Hayward Area Park, Recreation and Parkway District, second of its kind in the State, was established by electoral vote in November, 1944, which provides for County tax funds with which to conduct a year-round recreational program for the Hayward Area. This area comprises 54.45 square miles and includes the city of Hayward and fourteen adjacent communities. Activities include supervised play grounds and play fields, supervised community centers, evening programs of square dancing, movies and social recreation, night soft ball, evening basketball, teen-age centers, baseball, special holiday programs, crafts, drama, music and nature lore. The city of Hayward maintains a beautiful $110,000 indoor plunge; one of the finest in the west. A Campfire Girls' log cabin and Boys' Youth cabin were constructed in Memorial Park in 1939. Although the Recreation District has been functioning since September, 1945, it is fast becoming a popular motivating spirit in the area and its activities are reaching both young and old. In November of 1956, the residents of the Hayward area voted for the annexation of Eden Township to the East Bay Regional Park district for additional recreational facilities, thereby adding 3,300 acres to the area's park system. Five new swimming pools for students and public use are conveniently located at area high schools.

Model Municipal Government

Hayward's model municipal government, functioning in a $110,000 City Hall, the $100,000 Veterans' Memorial Building, a $90,000 Post Office and $100,000 Library form the nucleus of the civic center, facing a three-acre city park. In the retail district, there are seven banks and over four hundred stores of various classifications.

The Hayward Area Future Is Assured

Hayward is essentially an industrial community of the future. There are large areas of level land for business and industry and homes, and hill districts ideal for large estates and residences. Reasonably priced land, a plentiful supply of water, low cost power and natural gas, rapid and efficient transportation, labor supply and central location in the area with bountiful resources, are offered to home builders and industries. Industrial, commercial and government establishments located in the Hayward Area, accounted for employment of 27,300 in July of 1961.

The Polk Market
picks new-car buyers out of the crowd

To meet today's fierce competition, automobile advertisers and their agencies recognize that mass advertising is not enough. Everybody is not a prime prospect for a new car, just as everybody is not a prime prospect for a truck, a tractor or a cabin cruiser.

Certainly, mass advertising is essential to create a receptive climate for new automobiles. But the complete automobile advertising program must cultivate, personally and intensively, those individuals who *can* buy . . . and who *do* buy regularly!

The Polk Market is the one medium that picks these regular new-car buyers out of the crowd and identifies them by name and address.

Then the automobile advertiser and his agency can direct personal, forceful mail advertisements to these identified new-car buyers, using The Polk Market exactly as they use other printed media.

Automobile advertisers and their agencies who have used The Polk Market have been impressed by its ability to move people into action, to identify dealerships and to buttress an entire advertising program.

Continuing research and experience prove that advertisements mailed to potential buyers gain greater attention . . . win far higher readership than any other form of printed advertising . . . tell a much more complete sales story . . . and pay off in measurable sales results — *all at a surprisingly low cost per reader-prospect!*

R. L. Polk & Co. functions in mail advertising exactly as the publisher functions in other printed media. Standard gross rates and specifications have been established by R. L. Polk & Co. when acting as the complete publisher for specific types of mail advertising campaigns. These rates apply equally to advertisers and agencies and are fully commissionable to the agency.

We will be happy to show you how The Polk Market can help you make all your advertising dollars work more effectively. Let us hear from you.

Out of Sight - Out of Mind

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.

2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

Know Your Endorser

• The United States Secret Service has launched a "KNOW YOUR ENDORSER" campaign against check forgery to supplement its highly successful "KNOW YOUR MONEY" drive, which, over a period of six years, reduced the amount of counterfeit money in circulation by more than 97 per cent.

We can all cooperate in this long-pull educational program and thus eliminate the market for forged checks by making it dangerous and unprofitable for forgers to operate. Here are a few simple rules for those who cash checks and those who get them cashed.

If You Cash Checks for Others

1. DEMAND PROPER IDENTIFICATION. Remember that lodge cards, Social Security cards, auto licenses, letters and the like can be forged and stolen. A forger's credentials are often forgeries themselves. Proper identification can best be determined by asking yourself this question: "IF THIS CHECK IS RETURNED, CAN I FIND THE PERSON WHO GAVE IT TO ME?"
2. Always demand that the person cashing the check endorse it in *your presence.* Even though the check has been endorsed, insist that he endorse it again.
3. Do not cash checks that show any alteration of their face. Altered checks are usually forged checks.
4. If you are an employer and more than one employee of yours is empowered to cash checks, be sure that they initial every accepted check so that you can identify the person who cashed it.
5. You can safeguard your merchandise, your cash, and your profits from check forgers by following these simple rules every time you cash a check. Make these practices routine. Remember you lose if you cash a forged check.

If You Get Checks Cashed

1. BE SURE some member of the family is at home when checks are due to be delivered. Get the check as soon as it arrives.
2. PRINT your name clearly on your mail box. EQUIP your mail box with a lock if you have not done so.
3. CASH your checks in the same place each month. This will make identification easier.
4. DO NOT ENDORSE your check until you are in the presence of the person you will ask to cash it.

When You Want to Know:

—where a person lives.

—what his occupation is.

—who lives at a certain number on a street.

—where a street is located.

—the correct spelling of a name.

—the officers of a corporation.

—the partners in a firm.

—the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.

—you can quickly find the answer in the City Directory.

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in **heavy type** denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1962

Copyright, 1962, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.
