TYPES OF CALLS

STATION-TO-STATION CALLS

Call station-to-station if you'll talk with anyone who answers. You can dial many of these calls direct (see pages 3-10). Rates are lower than person-to-person and charging begins when the called telephone is answered.

PERSON-TO-PERSON CALLS

Call person-to-person if you wish to talk to a particular person or to see if a certain person is available before starting your conversation. To place a person-to-person call dial Operator and give her the Area Code or city, number and name of the person. Rates are higher than station-to-station rates. Charging starts when conversation begins.

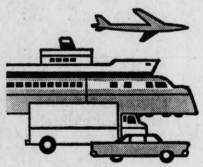
COLLECT CALLS

You can make most calls "collect" if the person you are calling agrees to pay the charge. If you want to make a collect call, please be sure to tell the Operator when you give her the call.

Upon request the Operator will notify you at the end of a stated period of time on long distance calls.

CONFERENCE CALLS

You can talk with several people in different places at the same time. Tell the Long Distance Operator you wish to make a conference call.



MOBILE AND MARINE SERVICE

You can make local and Long Distance calls to automobiles, trucks, trains, aircraft and boats equipped for telephone service. Dial Operator and ask for the Mobile Service Operator, or the Marine Operator.

OVERSEAS CALLS (including Alaska and Hawaii)

Calls to practically all the world's telephones can be made from your telephone. Tell the Operator you wish to place an overseas call and give her the name of the country you're calling.
