

THE BEST SEWING MACHINE.

"He who saves Labor saves Life."

No house is furnished complete without a Sewing Machine.

Get the Best! It is the Cheapest!

The Genuine "Singer" is the simplest, strongest, and best adjusted Machine ever made.

It is so simple that even a novice can sew with it.

It is so strong that it is next to impossible to break or injure it with ordinary usage. And, in addition, the *latest improved Singer* New Family Machine has been so perfected that it runs as easily and makes as little noise, when in operation, as the Toy Sewing Machines whose only merits are these qualities.

With every one of our *New Family Sewing Machines* we furnish attachments which render *Hemming, Felling, Ruffling, Tucking, Cording, Binding, Hem Stitching, Trimming, Braiding and Embroidering*, as easy and simple as plain stitching.

If popularity is a criterion of merit our record of 300,000 sales in 1878, (being more than the combined sales of all the other Sewing Machine Manufacturers in the United States) prove conclusively that the **SINGER is the Best.**
