

N. W. Spaulding Saw Co.

MANUFACTURERS OF

SPAULDING'S

Inserted Tooth and Chisel-Bit

CIRCULAR SAWS,

Nos. 17 and 19 FREMONT STREET,

Near Market, San Francisco, Cal.

Our NEW CHISEL-BIT SAW never clogs or chokes in the cut. It is a free and easy cutter. Frees itself perfectly in all kinds of timber. The bits never work loose. It requires no skill to keep it in order. It is the best and most economical Saw in use.

Some of the salient points of excellence in our new CHISEL-BIT SAWS as compared with other

Saws: 1st—The saving of power to do a given amount of work. 2d—The saving of time and expense in keeping the Saws in working order. 3d—The stability of the bits and their fastenings. 4th—The cost at which lumber may be cut per thousand.

5th—The protection afforded the saw-plate from the wear of the saw-dust. We respectfully refer

to over three hundred mills now using these saws.
