Wine Cellars, Vaults, Arches and Walls made in Cement Concrete a specialty. All
work guaranteed. This Mosaic Compound of Marble and Cement is richer and more
decorative and artistic than any marble. To obtain the same designs and ornaments
in marble would cost about ten times as much. It does not stain like marble, and
is much harder. Consequently, this Mosaic Work is cheaper and will last longer
than marble. PATENT APPLIED FOR. We can produce certificates and testimonials
from the leading Architects of Europe, showing this work, now in use for over
twenty years, to stand to-day just as bright as new. Any Cement tiles can be deliv-
ered within ten days from receipt of order. All orders Promptly attended to.
