

The Houser Combined Header and Thresher

Has Made Grain Raising Profitable.

The Machine above all others which has Revolutionized the Mode of Harvesting in California and Reduced the Cost of Harvesting to Less than \$1.00 an Acre.

THE PIONEER BELT MACHINE,

Ten Years Since first introduced. Every Houser Harvester sold has Given Entire Satisfaction. None ever Returned to the Works.

It has a larger sale than all other Harvesters combined. Has Steel Shafting and Gearing, 30-inch Cylinder, 42 and 46-inch Separator, and has been materially reduced in weight. It is a
