"Lips close to the telephone for best results"

YOUR  
TELEPHONE OPERATOR SAYS

"If you have ever tried drawing the telephone receiver away from your ear while someone is telephoning to you, you know how faint that voice becomes—how hard to hear.

"It's pretty much the same, for people you're telephoning to, when you hold your lips at a distance from the transmitter.

"For best results, please speak slowly and clearly, in an even tone of voice, directly into the transmitter, with the lips just clearing the mouthpiece. Please talk in an ordinary conversational voice. Thank you!"
