(Continued Next Page)

If you sometimes get the wrong number or no number at all, you may be dialing incorrectly. After turning the dial all the way to the stop, let it return at its own speed.

PLEASE LISTEN
for the **DIAL TONE**
before **DIALING**

That "dial tone", a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"

Incidentally

Prompt answering of a telephone's ring is thoughtful, courteous—and good business.
