FOREWORD

•

Harking back to the days of Ye Olde Towne Crier, the Galleon for Spring 1940 has been motivated by the traditions of this early "walking chronicle."

As you turn through the pages of this book, we hope you will see eye to eye with us; when you reach the final page that you will say . . . "Ninety-six, and all is well."

DEDICATION

To that first of journalists, Ye Olde Towne Crier, we dedicate this Galleon. To him, whose nocturnal ramblings set the tradition of late hours for his many successors, we owe a measure of questionable thanks.

Because we wish to tender tardy recognition to him, our journalistic forebearer, we dedicate this Galleon as our tribute to his memory.

Ye Towne Council

Custodian Jack O'Brien and Dan Henry hang the Balboa banner in the auditorium preparatory to an athletic rally.

Election Committee, Evelyn Currier, registrar; Henry Stelling, assistant; and Mrs. Cushman, sponsor, talk over plans for the coming S. A. election.

Trumpeter Seymour Lederman furnishes the military setting for morning flag raising ceremony.

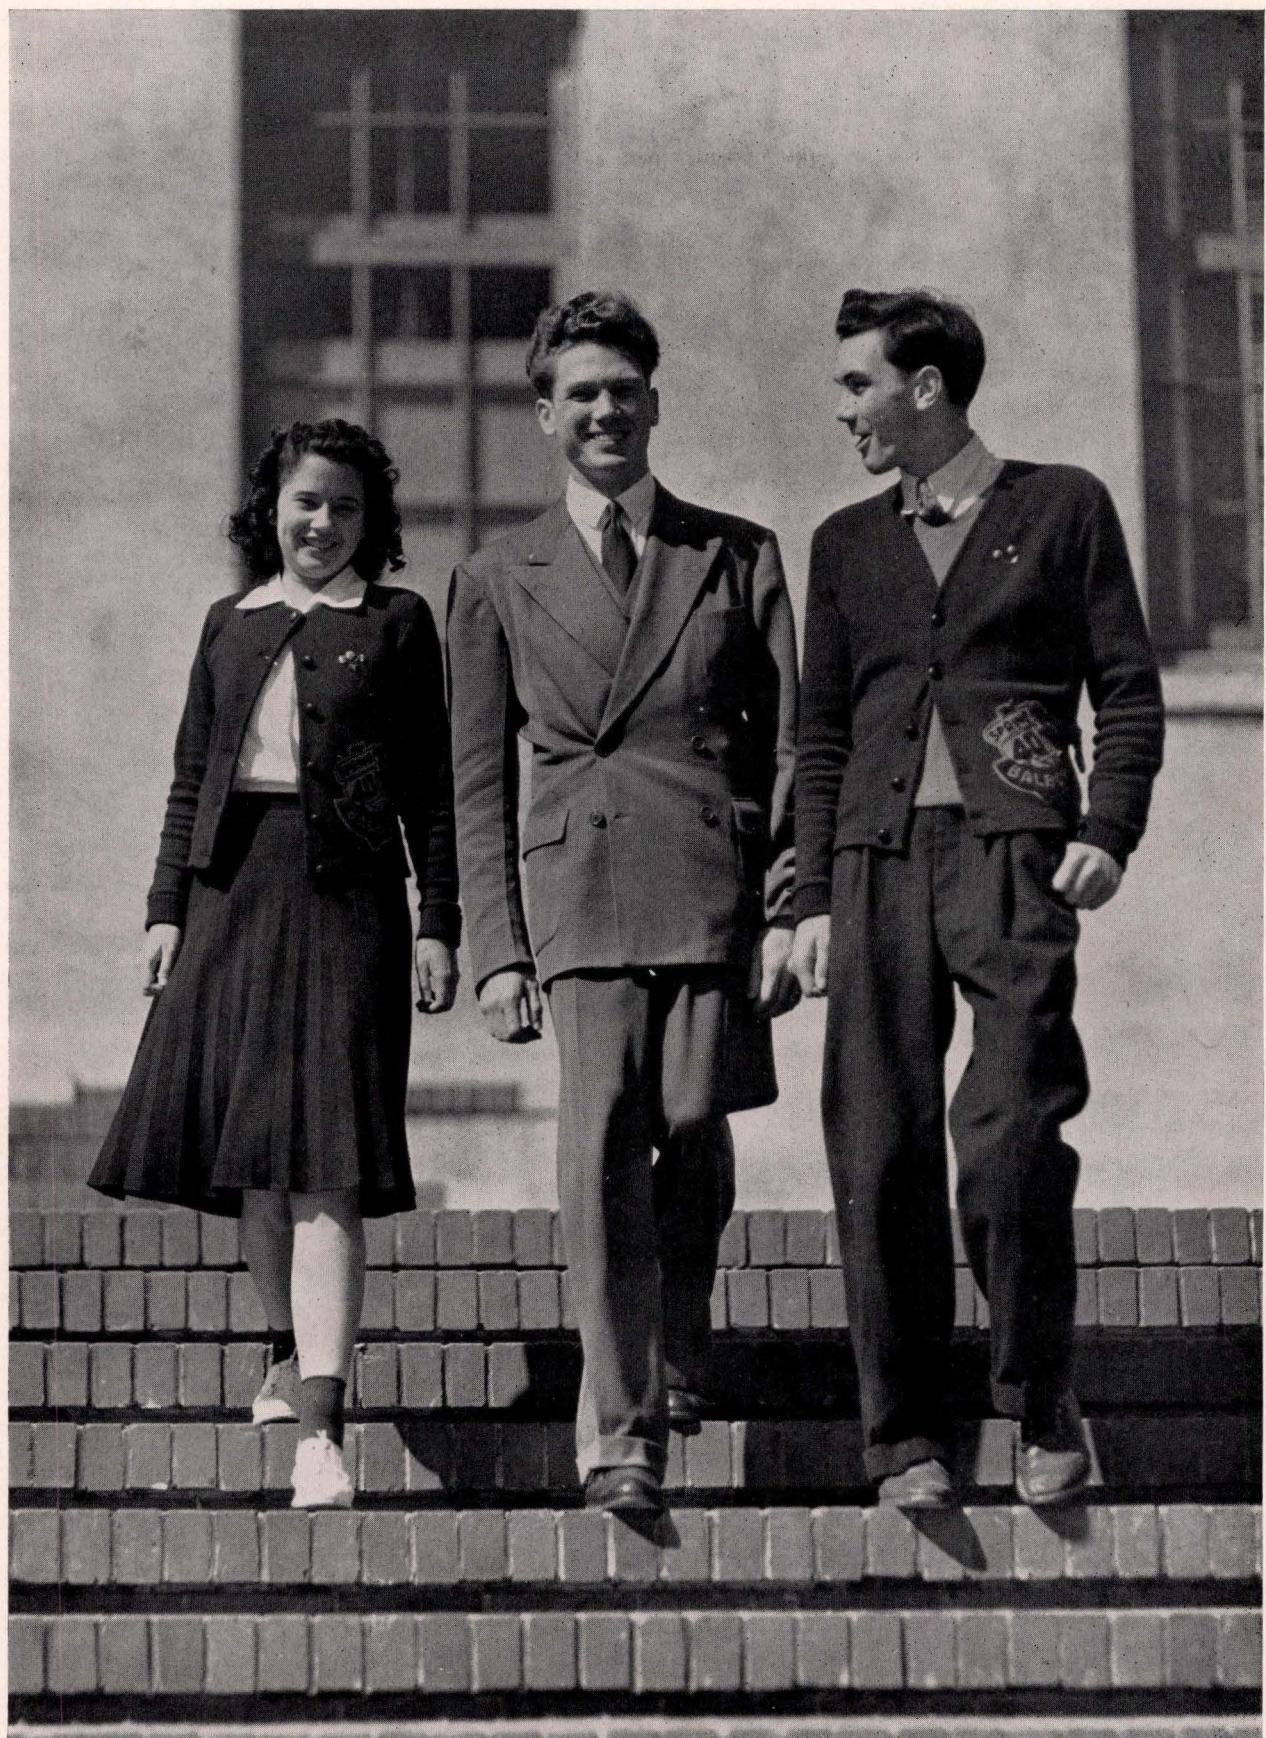

Yolanda Gazzano and June Warnick, low senior assistant treasurer and treasurer respectively, take a greatly deserved 'time out' for relaxation between low senior collections.

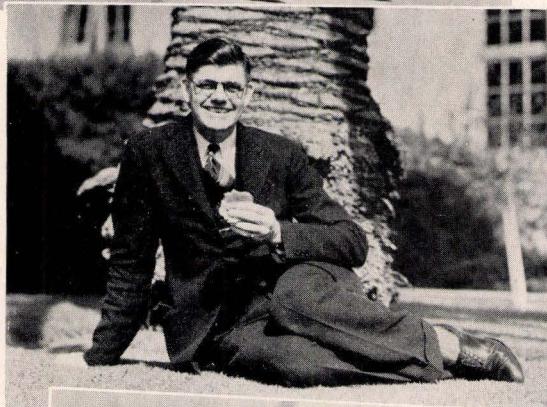

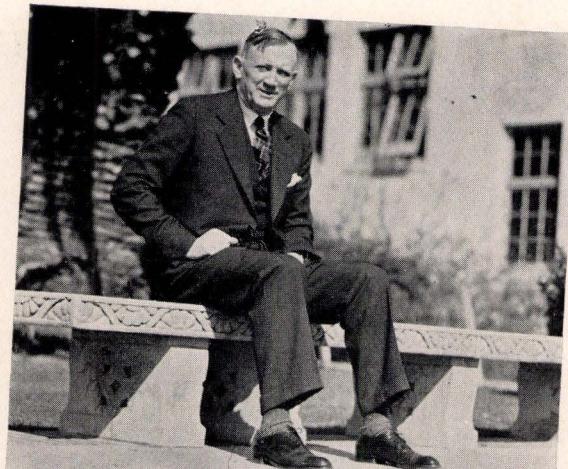

One of the many duties of the S. A. vice president is the management of the main bulletin board. Gloria Merta has set a new high in keeping the board both timely and interesting.

BON VOYAGE, SENIORS

Our seniors are busy putting on the finishing touches, getting last minute work in, having final visits with their friends before the orchestra begins playing on the thirteenth of June. On the whole, they have been a very fine class, unusually good in fact, and respond to their manifold duties exceptionally well.

There are many opinions among members of this class concerning what an education is, and what preparation is necessary for getting a job. Some are most interested in preparing themselves for living, in getting a more correct self estimate, and in learning how to get along with others. A well rounded high school program affords the student an excellent opportunity to develop himself into a person fitted by personal and mental traits to face the future.

R. R. CHASE

Words About Our Administrators

R. R. CHASE

In the passing parade of graduating classes, Robert R. Chase, captain of the good ship Galleon, will be forever remembered, not only because of his capability, but also for his support of and participation in all student activities. A true sportsman at heart, "R. R." can be found ardently enjoying ice skating, horseback riding, and even playing the flute with the orchestra.

To Mr. Chase, the Buccaneers say "thank you," with the hope that he may feel in his heart a small part, at least, of the gratitude which they feel is rightfully due him.

O. I. SCHMAELZLE

O. I. Schmaelzle, the Galleon's first mate, imparts cheerfulness to everyone he meets. Yes, "O. I. S." is always a good tonic, but he has a serious side, which he displays only when the situation demands. His easy-going manner and ever-present smile make us forget that he is one of our "bosses," and he is accepted by every Buccaneer as a pal. Although this dean of boys is always busy, he finds time to challenge someone to a basketball game in the hope that his staff will be victorious, and chocolate cakes, their trophy.

IRENE M. PAULY

Buccaneers are indeed fortunate in having as dean of girls one who is every inch a real Balboan. Always ready to assist any student, Miss Pauly has earned for herself the name of "friend," which is one of the biggest tributes that can be paid to any teacher or administrator.

In activities in general, Miss Pauly has the interest of the pupils at heart. Those who assist this vice principal in her office are indeed privileged.

Words From Our Administrators

BALBOA GIRLS ACTIVE

As another term draws to a close, the Buccaneers look back and attempt to count the days in the light of accomplishments. Indeed, this semester has been no different from any other except in that it may have been a little more active than past ones.

The Girls' Council has been especially busy in attempting to reach happy solutions for problems of etiquette which arise in high school life.

An all-time precedent was broken when Martha Holdener was elected high senior president.

All in all, the fairer sex on the campus may feel proud of their activities during spring '40.

Candidly Speaking

Important to every school is its faculty. If knowledge, kindness, understanding, and dependability count at all, then Balboa's teaching personnel must surely rank at the top of the list of San Francisco high schools. Consisting of 125 men and women, each with special training in his particular field of work, the staff stands ready to direct the paths of pupils enrolled at Balboa. No task, beneficial to the student, is too tedious for any of them—there is always a capable mind and ready hand to assist those in need.

In years to come, as the Buccaneers allow their thoughts to drift down Memory Lane, they will undoubtedly recall, with no small degree of amusement, interesting incidents surrounding members of the faculty.

"Doc" Nunn, with or without his precious goatee, is always good for a laugh, particularly when he digs his lunch sack out of his drawer, for it contains enough for two—at least. The team of "Jones, Heinz, and Bronson," which has become a well-known trio over the "Oh Teacher" radio program, has kept many an anxious student from winning a pair of those coveted "slacks or trousers." And Spencer Tracy! Yes, he has roamed the halls for many a term in the person of Frank Kelly. Detentions—oh, that ninth period club—with its tickets for admission so easily handed out by Miss Garfinkle and "Gibby" (Mr. Gibson) but they're grand persons after ninth period. Drama always brings to mind Miss Price. Song assemblies spell Salvatore Billeci who carries a scratch pad in his pocket for jotting down ideas for new Buccaneer songs. "Laps" around the field means Mr. Hill, but Mr. Hill also brings to mind the championship baseball nine. Roller skates remind one of Miss Klaus, who gets her daily dozen during the lunch hour—skating around the campus. Lost textbooks are always accompanied by an immediate call to the library—and a bill from Mrs. Homel, which she never seems to forget, much to the student's sorrow. Thirsty bloodhounds on your trail at Alemany tunnel mean Mr. Hamersley.

And if space permitted, some little reminder about all other members of the faculty, but written notes are not necessary to remember the genial persons who make up the headlines in Balboa's passing parade.

Treasurer Jim Skinner brings all his persuasive powers into use in selling Mr. Chase the first Student Body card in the traditional Student Association drive for membership. "R. R. C." does his bit by digging into his jeans and coming forth with—fifty pennies.

Florence Mitchell, assistant treasurer, appreciates with Esther Rovai, secretary, some funny happening recorded in the minutes of the Board of Directors. Probably relates to the discussion as to acceptable costumes for the famous "Sadie Hawkins Day."

Student Association

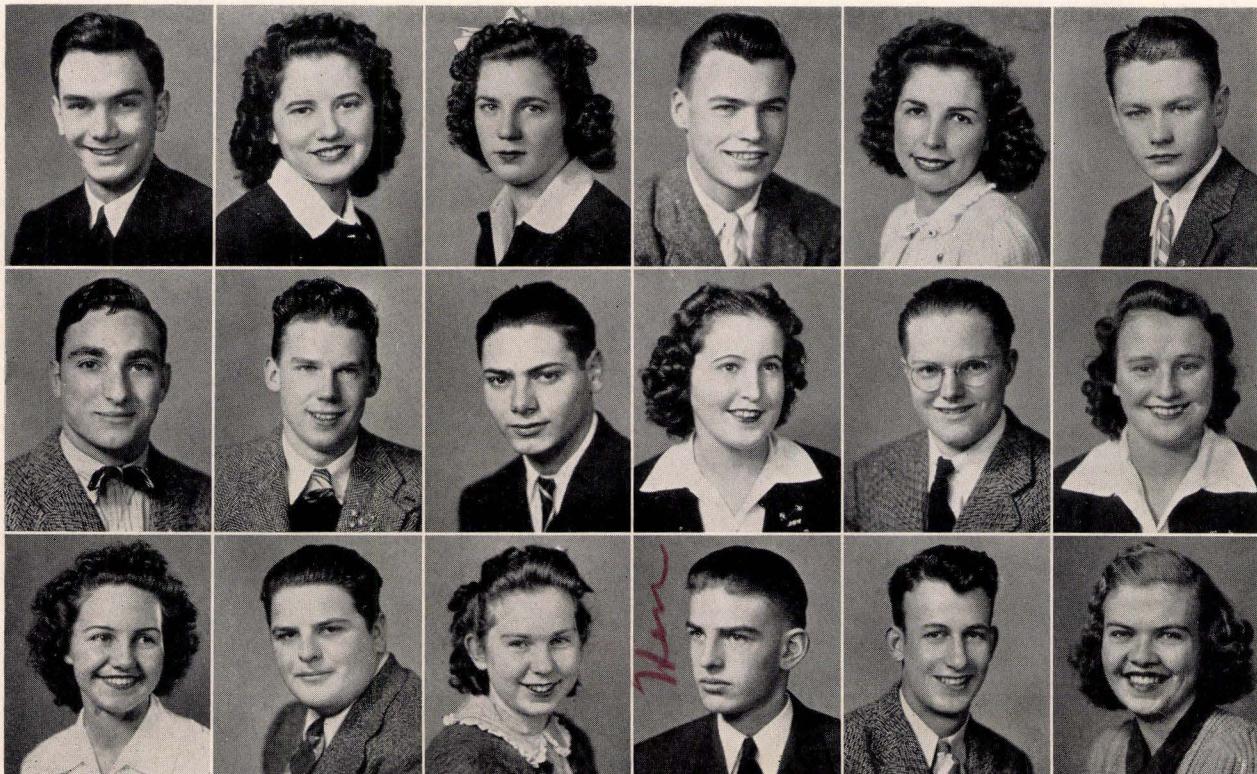

"Bucket Brigade" and "Clean Up" seem to have been the key note for the general discussions and action on the part of the Board of Directors during the present term. Student Court, under the direction of Kenneth Mooslin, was given the task of putting back into use the well-known Bucket Brigade, which serves to assist in the general campus clean-up campaign. Rallies and general student activities have been quite largely dependent upon the general condition of the campus, so important has this factor become to the Buccaneers. To Charles Howard and Martha Holdener fell the task of heading this "Clean Campus" committee.

Along about the half way mark in the term came the famous "Sadie Hawkins Day," one never to be forgotten, for the day was well filled with rather humorous stunts and costumes, topped off by a dance in the gym. The scheme of having class instruction in dancing was tried out, with each particular class claiming its own

day after school in the gym for a period of four weeks, climaxing with all groups getting together in the gymnasium, when each class attempted to out-do the other from the knowledge gained during the period of training. This, and the Sadie Hawkins Day, which took the place of the usual "Hello Day" had as their aim that of encouraging the making of new acquaintances among the Buccaneers.

Incidental activities of the Board of Directors included the appointment of Bill Bianculli as traffic captain, Evelyn Currier as registrar of voters, and Henry Stelling as assistant registrar.

The Blocks committee, headed by Steve Leonoudakis, made a study of the firms who manufacture chenille awards, with the aim of selecting one firm to do the business for Balboa High School.

Gloria Merta, vice president of the Student Association, conducted all dances sponsored by that organization. The Leap Year dance, in which only the girls could ask the boys to dance, just about topped the list of interesting school affairs.

Board of Directors gather, with their proxy, Ed Lopez, to sit in quiet fashion while the cameraman does his duty.

Jim Madsen, publicity manager, delights at telling Margaret Bonsor his plans for advertising Balboa's Open House. "Shall I do it this way and make them laugh?" says Jim. "I wonder." And all Jim does is to chew on that pencil while Margaret delights at his dubious state of mind, and just grins.

Pat Spagnoli tells Louis Kramer that, when he is put on Bucket Brigade for eating lunch in forbidden territory, he is supposed to get all the papers, and not just the few that happen to blow into his path.

Honor Societies

CALIFORNIA SCHOLARSHIP FEDERATION

That envied gold seal on a diploma! How Ed Lopez, C.S.F. prexy, and Elma Oddstad, secretary, hope they're fortunate enough to merit one. Miss Rivers, sponsor, explains to the two officers the procedure to be followed when the California Scholarship Federation roll is called during those last hectic days for the prospective graduates. Of the 373 candidates for graduation, probably no more than a handful will lay claim to the honors awarded by the scholarship society. In addition to the seal, students who have fulfilled requirements are granted a gold pin and a life membership in the state organization.

BOYS' BLOCK "B"

"Oh, boy, did that paddling hurt!" said Bernard Wyman, newly-initiated Block "B" member, as the "sign" of the society met the anatomy of that young man with no small amount of force applied by Andy Adams under the eagle eye of President Bob Antracoli.

Block "B's" are conferred upon boys who have been members of championship teams or have won the necessary number of points for participation in sports. This organization is active at rallies, acting as ushers, assisting in the planning of card stunts, and the like.

GIRLS' BLOCK "B"

Girls' Block "B" officials, Dorothea Hurlbut, vice president; Miss Todd, sponsor; and May Edwards, president; find a warm spot in which to ponder over their problems. This association, composed of girls who have gained their award in sports for six semesters, has also been active in ushering at athletic rallies, acting as officials and on reception committee at play days, and assisting in the G.A.A. reception for new students.

Many social events which round out their life include swimming and ice skating parties, and bicycle rides.

QUILL AND SCROLL

"Thumbers" all, but for purposes of initiation only. These journalists, about to "walk the plank" into Quill and Scroll, international honor society of high school publications' enthusiasts, have earned their membership by plenty of "ink-slinging" and good hard work. If you're the least in doubt, just ask Bette Morehouse, Ramona Castell, Elma Oddstad, Angelina Lopez, Jack Merrick, George Batis, Ed Lopez (president), or Margaret Bonsor.

Initiation proved too much for five other members who took "Dutch leave" before the camera artist did his duty.

ELECTIONS AND BOOK COMMITTEES

In the progress of senior activities, many occasions arose when voting was necessary. The purpose of the Elections Committee was to count any voting done in the high senior registries. This committee was sponsored by Miss Hanlon and Lottie Schick, chairman. In the school library is located the Senior Book. Sponsored by Miss Knox, with Lillian Cafferata as chairman, the Senior Book Committee supervised the signatures of the graduating seniors.

Jack O'Brien let himself in for many jobs when he walked off with the S.A. custodian election. Right now he's about to unlock the club bulletin board to post notices of meetings for the following week.

The Schmaelzle office staff really "hit the books," even if they do like chocolate cake. Bet it's about report card time! Can you find two sets of "double-trouble" in this shot? They're there.

In "Northern Lights," term play, Dushka (Seemah Battat) appears unexpectedly, so in order to keep secret their rendezvous, Nina (Elma Oddstad) pretends to be telling Alex's (Bob Von Glahn) fortune.

Charlie Howard . . . Scene-Stealer

"A wee bit of the heather," Charles Howard captures one and all with whom those laughing eyes and Irish smile come in contact. A personality that is truly given to but one in a million, Charlie possesses a gift of gab that enables him to ramble along endlessly, and strange as it may seem, most of his chatter provokes a laugh from eager listeners.

Drama is the love of his life. Indeed, Charlie might well be called a second Rooney, not only because of his acting ability, but because "scene stealing" is so much a part of his make-up that it is done almost unconsciously. As low senior proxy, Charlie has definite ideas as to his future in politics as well as further work on the stage. Virtually unknown until the present term, "Chuck" has won the heart of every Buccaneer, and after turning laughter into tears at his mimics, he is one not easily forgotten.

It's Town Hall Tonight, Folks!

Balboa may well be proud of having one of the finest directors in San Francisco, Miss Anna May Price, who has again led the Cothurnus Players through a profitable semester. Drama and stage costume classes found great interest in the first activity which included demonstrations of and practice in various types of stage make-up, illustrating the principles underlying effective characterizations for amateur productions. The make-up committee with Jackie Horn, chairman, Enid Stout, Doris O'Reilly, Ed Cocks, Charles Howard, Jim McGill, Harold Vawter, and Jane Cheney as assistants, make up all productions with the help of Miss Price.

Many happy and worthwhile hours were spent in class while students interpreted Shakespeare in preparation for the Shakespearean Contest.

An interesting program for Open House and Freshman Orientation was presented by the advanced group of the drama class with the assistance of the stage crew. Bob Von Glahn, chairman, Jackie Horn, Enid Stout, Angelina Lopez, Bob Johnson, Jane Cheney, Doris O'Reilly, Bella Xepoleas, Elmina Bontempi, and Alice Westphal built the program to show the value to the individual student of taking drama.

Miss Mallet's art classes made effective puppets which enabled the Cothurnus Players to do some work in puppetry. Jackie Horn, Enid Stout, Angelina Lopez,

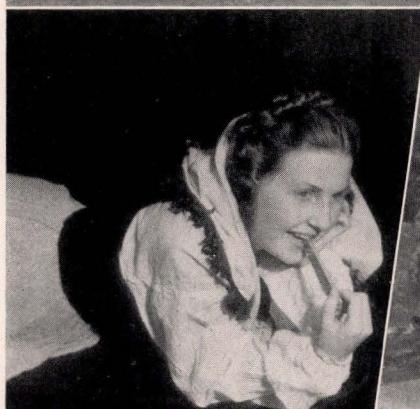

Doris O'Reilly, Charles Howard, Jim McGill, and Harold Vawter participated actively in the new project, which proved an interesting experience.

April 30 rang up the curtain on the term play, "The Northern Lights," a delightful musical which took place in Sweden, about a Swedish-American mother who took her son to that country to find him a wife. The young man fell in love with a gypsy who turned out to be a Swedish girl who had been stolen when she was a baby. The music and costumes of the gypsy band added sparkle and brilliance to the story.

Mrs. Norgard's mixed chorus gave the play the proper musical background. Miss Connell assisted in training the Swedish folk dances, while Miss Essner's stage costume class designed and made all costumes. Stage management was under the direction of Mr. Heinz.

Credit should go to Barbara Beebe, Barbara Grones, Enid Stout, Gerda Thron, Jim McGill, Erland Carlson, Joyce Peckham, Jackie Horn, Bob Von Glahn, Jane Cheney, Harold Vawter, Elma Oddstad, Charles Howard, Seemah Battat, Doris O'Reilly, Angelina Lopez, Bella Xepoleas, Frank Sylvestri, and Jack Bramy for their interesting characterizations.

Officers of the Cothurnus Players of the spring term are: President, Angelina Lopez; vice president, Dorothy Camuffo; secretary, Elma Oddstad; treasurer, Barbara Beebe; and publicity manager, Jack Bramy.

DRAMA

Success of the productions of the term were due to the hard work of the Cothurnus Players. In the term play, "Northern Lights" the witch-like grandmother, Lomeja was portrayed by Angelina Lopez. The settings and lighting effects were ably cared for by the stage crew.

Nina, (Elma Oddstad) day dreams while chewing on a feather. Miss Price is surrounded by the members of the drama class, who listen attentively as she explains the dialogue in the script. Barbara Grones, Erland Carlson, and Edwin Cocks had great fun learning to work puppets. Dushka (Seemah Battat) gazes at the crystal beads which hold the secret of the golden sister, Nina. While Lomeja tells Nina's fortune, Tarasova (Jim McGill) looks on disapprovingly. Christina (Barbara Beebe) is thrilled by the lights that flash across the sky. Alex (Bob Von Glahn) tells Nina that she is Christina's long lost sister. The stage crew works on the lighting for the play as Olaf (Erland Carlson) stops Idnella's (Enid Stout) pillow with his face.

Balboa's Barbara Beebe

A cheery smile, a pair of twinkling brown eyes, and a song! Who other than our own Barbara Beebe, beloved by Balboa during her three years stay with the Buccaneers, not only for her glorious voice, but for her lovable disposition.

Barbara's singing career began while she was a student at Aptos Junior High School, when she sang in a pageant, later appearing over the radio on a school program, and finally in "Pinafore." During her high school years, she has crowded into the busy days three solo appearances over KPO, a television demonstration for radio experts (the first of its kind in San Francisco), five engagements at Treasure Island, two concerts at the Music Center in Berkeley, and numerous programs for the D.A.R., California Club, P.T.A., and St. Francis Wood Musical Club.

What does the future hold? Barbara hopes it will be opera, and her plans now provide for study toward that end after graduation. Whatever may come, the Buccaneers know that to such a grand person it can be only success—the fulfillment of her dreams.

Balboa will never forget the little girl who three years ago sang "Vienna Dreams" at the first meeting of the Class of June '40.

BLUE BOYS

M a s t e r s o f M e l o d y

Music among the Buccaneers continues in the same popular vein it has occupied for several years, with orchestra, band, and choruses each coming in for a share of the applause.

Preparation for the San Jose Festival claimed most of the A Capella Choir's time, for this event meant competition with choirs of all peninsula and bay schools. Principal songs of the Choir include "Cherubim Hymn," "All Through the Night," and "Wake Ye Shepherds," with Barbara Beebe as soloist, and Mrs. Norgard, director. A benefit movie on April 19 was a source of revenue for gowns which the choir will wear for all public appearances.

This term, fifty-two girls, under the sponsorship of Mrs. Norgard, make up the largest Girls' Chorus in the history of the school. Most popular among the songs studied for their public appearances by this organization were "The Romaika," "Panis Angelicus," "Rapturous Hour," and "Green Branches," with

Elaine Datwyler taking the solo parts, and Carmeta Sacchi acting as accompanist.

Thirty-four boys, accompanied by Eugene Jensen, spent many enjoyable hours singing "Spirit of Balboa High," a composition of Mr. Billeci, director.

Annual R.O.T.C. competition provided incentive for the industrious practice of the school band of eighty boys under the baton of Mr. Kinkel and student bandmaster, Glen Jones.

The orchestra, under Mr. Billeci's guidance, entertained the school at assemblies and during Music Week with such numbers as "The Unfinished Symphony," "Egyptian Ballet," and "Atlantis Suite."

Blue Boys, guided by Mr. Billeci assisted by Fred Marcucci, provided music for all school dances and parties.

Harmony students studied advanced composition and listened to symphonic phonograph pieces under the guidance of Miss Robinson.

Galleon and Buccaneer

for
Spring • 1940

In the publishing of a yearbook and a bi-weekly newspaper, all is not a path of roses. "Deadline" day, when final copy must be in, is always accompanied by headaches. Angelina Lopez, Buccaneer proof reader, gives the copy a last minute check for errors, while Bette Morehouse looks on, wondering if her "Hi-Sports" copy will appear in print—or in the waste basket. Jack Merrick, cub editor, checks up on his typists, while Ramona Castell and Jack O'Brien worry about their own troubles on the Galleon.

Irene Backman and Ed Lopez, after a term as editor of the Galleon and Buccaneer respectively, and Gloria Merta, following a semester as business manager of both publications, advanced to the position of student advisors, which carries with it a responsibility next to the faculty advisor's.

Harry Michelsen, Margaret Bonsor, and June Warnick ponder over the day's Galleon sales, eagerly looking forward to May 17 when their work for the year will be over.

Oddstad or Batis ...Which Shall It Be?

Flash! It's the question of the hour! Who deserves the greatest honors for his publication, Elma Oddstad of the Galleon, or George Batis of the Buccaneer? Elma is very definitely satisfied that her yearbook surpasses George's paper. But on the other hand, George is just as firmly convinced that his paper is the better.

What can be done when such definite self-satisfaction envelopes these two editors? Maybe they could be convinced that each should lean a little in the other's favor—yes, maybe. Well, it was only a suggestion, and no solution to this grave problem has been arrived at. To tell the truth, there probably is no answer. Sigh, sigh! This is really very nerve-wracking.

Flash! A decision has been reached! Equal honors go to both George and Elma for their excellent publications. They're two grand editors who really deserve praise.

The typical family catering to the very typical spoiled daughter enter a toymaker's shop to appease the daughter's wishes for a doll. Thus went the theme of the Jinx of spring '40. The dollmaker, in his anxiety to sell his wares, displays all of his masterpieces of animated doll life to the fickle daughter. But in vain! She could not be satisfied. The toymaker, Jesse Henriques, well satisfied himself with the art he had achieved in his dolls, could not be discouraged. These dolls are not mere playthings, but animated, almost human beings, for they sang, danced, talked, and played. As the daughter viewed each artful creation, it entertained but did not satisfy her.

In the course of the story, the painted doll, Jane Cheney, and the tin soldier, Jack Gregory, took leave of the toy shop and were married. To celebrate the happy event, the Jack-in-the-box, Wesley Donner, suggested putting on a program, each doll to take part. Even Confucius was there, in the person of our proxy, Ed Lopez.

The petite French doll, Barbara Beebe, very beautifully gave out with "The Heart That's Free." Other vocalists who were under the scrutiny of the fickle daughter were: Olive Ray, Patsy Haughton, Richard Wagner, Elaine Datwyler, Lorraine Harrington, Florence Allen, Bill Richardson, and Seemah Battat. Each of these, though he entertained royally, was also unsuccessful in selling himself.

From 'way down South came Joe Silva to give his version of "Old Man River."

Ah! Dancers! A lovely, swishing, cellophane hula skirt, swaying to the graceful movements of Evangeline Hernandez's lithe form, and Alice Westphal, doing her Mexican hat dance, were roundly applauded by the audience. Then came the Blue Boys with their remarkable rendition of "Little Brown Jug" and "In the Mood."

Among the celebrities present were Henry Aldrich, President Roosevelt, Bob Burns, Lionel Barrymore, and Jean Hersholt, all in the person of the talented impersonator, Harold Vawter.

Have you ever almost "split" with laughter? You would have had you seen and heard the very comic antics of Jim McGill, Paul Postler, Evard Ellison, and Jim Phillips. Adding to the zest of the program were the group dances, including the latest in "smooth" swing and a Dutch dance minus jam and jive.

All in all, the entire Jinx, from beginning to end, was a spell-binding success.

Lois Soto decides she'd better start counting the work ground out by the mimeograph operator, Olga Stella or else! We'll bet Armando Azaro wishes a typewriter had never been invented. Maybe the secretary Jean Wolbert, working at the mimeoscope wishes the lines she has to draw were straight lines to a pay check after graduation.

Esther Rovai tries to tell Miss Pauly that the material in this senior gown is better than the class has ever had before. "Well, maybe it's so," says model, Edith Wilson. "But I can't vouch for it." "Wait a minute," says secretary Dot McNeil, "I can't get all this conversation in my shorthand notes." "You'd better," says Miss Pauly.

With honor societies and clubs again in full swing, the student finds that they play an ever-increasing part in the life of the school. Even though organizations are not overcrowded, an active interest is manifested in them, and with the more-than-thirty societies offered to the Buccaneers a club enthusiast has a wide choice from which he may select a hobby or a group in which to further his interests. Since clubs are, at present, an extra-curricular activity, sponsors who have given of their time to assist students in their search for knowledge are entitled to a vote of thanks.

Clubs are, as usual, organized for service, additional training in curricular or extra-curricular work, or athletic enjoyment. Some groups have been functioning so long that they have become a vital part of the life of Balboa. Office work, for instance, is furthered very decidedly by the additional training received in Main Office Staff, Mr. Chase's Staff, Miss Pauly's Staff, Mr. Schmaelzle's Staff, Mimeograph Staff, Library, Journal Typing Club, Office Machines, and Cutter Office. Other details of school life center around various language clubs, business staffs, stamp clubs, traffic, home economics, swimming, skating, and Red Cross.

Not only is athletic ability a requirement for entrance into this athletic organization, but scholarship in addition. Girls who have participated in after-school sports for three years are eligible for membership, provided their scholastic standing is average. Officers' duties

When it comes to literally "pounding out" words on the typewriter faster than you thought could ever be done, that popular group of Journal Typists just about tops the list. Lucille Landresse and Zelda Costa fairly make those keys talk, and with the training they are receiving along with their twenty "co-workers" they should be able to hold down a mighty good secretarial position after they receive their sheepskins. And do the reporters on both publications thank those typists? Whew, they say "yes".

The life of a librarian isn't all the bed of roses one might think. Verna Garmeson (left) says just what she thinks about the students who are careless with textbooks, and causes books to be sent to the repair shop. But Evelyn Reel and Louise Hodgkinson agree that it isn't as bad as it might be, 'cause when they come back from the bindery, they look just like new. Betty Thomas is about to inspect the lot just home from the doctor's.

"Whoopie, let's have a party" says Miss Garkinkle, as she virtually takes the food right out of the mouth of poor, starving Charles Wester at the annual luncheon of the Cutter Office. Kasaba King Bob O'Rourke

Bob O'Rourke, the sophomore "superman," was one of the best players ever to compete for the Orange and Blue. In his second year of varsity competition, Bob was honored with the position of third string "All City" center. O'Rourke has held virtually every position on the team and begrudges the few moments he has spent on the bench.

With two more years of play left, O'Rourke is expected to reach great heights in the field of casaba tossing. Bob is the brother of Harry O'Rourke, one of the best prep basketball players ever to graduate from a San Francisco high school. If Bob can improve as he goes along, Coach Mitchel will have a great center around which to build future championship teams.

Bob, a picture of rhythm and speed, is a willing mixer and can hold his own in any class of play.

Buccaneer Casaba Season

VARSITY BASKETBALL

After an impressive practice session of seven wins and no losses, the Buccaneer basketball quintet appeared to be one of the finest teams in Balboa's history. But "Old Man Defeat" was destined to strike at the Pirate five. The first game found "Bud" Goodyear, star guard, out with an infected toe. The next week, Goodyear was back at Kezar Pavilion fighting his hardest for Balboa, while Captain Frank McIntyre was in the hospital, suffering from a serious attack of double pneumonia which shelved him for the rest of the season. Then Jim Tomasello, ace forward, was also put on the sidelines because of a foot infection.

In the first league encounter, the Buccaneer quintet downed the Fighting Irish of Sacred Heart, 26-24, with Bob O'Rourke grabbing high scoring honors by caging 10 points.

Mission was the next victim for the casabans, as the Buccaneers emerged victorious by a 26-24 score over the defenseless Bears, which gave Balboa the Mission District Championship.

Then Commerce, holders of the cellar position, set back the Balboans in an overtime game in which Ed Dunne starred by tanking 13 points.

After this defeat, the Buccaneer followers watched their quintet fall into a slump when St. Ignatius, Poly, Washington, and Galileo blasted all hopes of puncturing the win column.

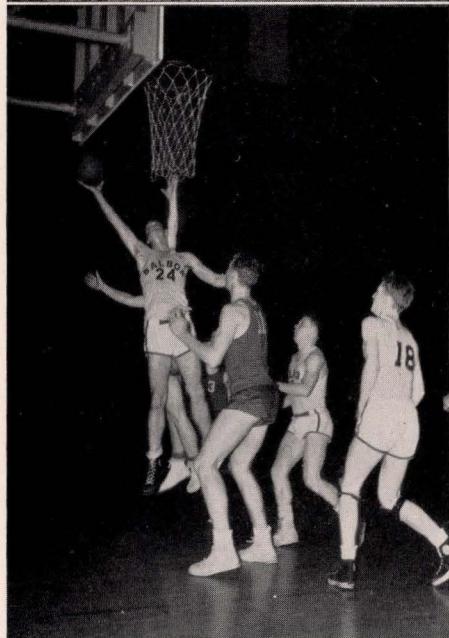

Although Balboa hoopsters did not have such an outstanding record, they will furnish plenty of material for next year's team.

130-POUND BASKETBALL

Faced with the problem of moulding a whole new team from green material, Coach Louis Haas guided the Baby Buccaneers through a stormy, and rather fruitless season. In the first league encounter, the Balboa "little men" were edged out by the Sacred Heart "little men," 26 to 24.

This naturally lowered the morale of the Baby Pirates, but a more distinct blow was soon to follow. Mission, Lowell, and Commerce, in that order downed all hopes of placing the home team on top.

The Baby Buccaneers showed signs of coming out of the rut in the St. Ignatius tilt, which ran into an overtime period, but again were edged out. Thereafter, the Buccaneer Babes were unable to break the jinx and in the final affair, gained honors by winning the "Cellar Championship" when downed by the Galileo Lions, 26 to 16.

COURT BRIEFS

Our mighty casaba tossers take time out to pose. Coached by Carl Mitchel and Captained by Bob O'Rourke, the varsity team went out to give all they had. Right behind them, fighting all the way, was the 130-pound team, which was coached by Louis Haas, with Bob Thomas as captain. Shown in two action shots are the varsity and the thirties. By observing either of them, you can readily see that our boys are right in there shooting for all they're worth.

We have still two other snaps taken in the midst of an exciting game, probably at very intense moments, when all eyes were focused in their direction. What have we here? A social gathering? Positively not. This is really business! Those last-minute plays Coach Carl Mitchel is going over will form an important part in deciding which team will be victorious.

Paul Varoff Top Flight Vault

In any discussion of track stars at Balboa, one of the first names to be mentioned is Paul Varoff, brother of the world-famous George.

Paul is doing wonders here on the campus. His coach will tell you that he is one of the hardest workers on the Buccaneer team, and may, while a prepster, break his brother's high school vault record of 13 feet 3 1/2 inches set in 1933.

After a training period in his own backyard, under the able coaching of his brother George, Paul, although only a sophomore, has cleared 12 feet 1 inch, and is expected to improve this mark.

Whether or not Varoff goes to college, he has an excellent prospect of becoming a world figure in the track field for he has all the necessary grace, speed, and power of which champions are molded.

No matter what he does, or how "high" he goes, he will always be one of Balboa's best loved and most admired athletes.

Cinderpath Burners of Balboa

This year's spikesters, under the guidance of Coach Ray Scott, proved to have one of the most successful regular practice seasons in Balboa's history, going through the entire term with only two losses, not counting the results of the "City Meet." Opening their season with Burlingame, they emerged victorious by a score of 71-24, but bowed to Lowell to the tune of 85-25. Poly was Balboa's next victim as the Pirate spikesters ran over them 63-40. The next two meets following were triangular with Balboa, Washington, and Jefferson as competitors in the first contest. Balboa emerged victorious by a score of 85 1/2 to Washington's 35, and Jefferson's 16 1/2.

The second meet found Balboa, Washington, and Mission as rivals. There could only be one victor and the Balboa trackmen were determined that it would be they, and so it was, with Balboa winning an impressive victory with 68 points over Mission's 36, and Washington's 18 1/2.

Individual stars on the cinder path were Tony Piazza, Vic Zimin, Paul Varoff, and Ken Mooslin, the "Big Four." Zimin, the only man in the city who compares favorably with George Canfield of Lowell, is an all-around track man. In the triangular meet with Mission and Washington, Zimin claimed a third

place in the 100-yard dash; first in low and high hurdles; second in broad jump and pole vault.

Varoff continues to claim first honors in pole vault, while Piazza takes top spot in the mile run, and has a good chance to win first place in the City Meet.

Mooslin is accorded a good chance to come through in the City Meet in both discus and shot put events.

As the Galleon goes to press, the Buccaneers' cinder team, along with Lowell and Commerce, figures to be one of the main competitors for the A.A.A. crown.

LIGHTWEIGHT TRACK

Coach Clarke's lightweight tracksters, molded from a turnout of green material, resorted to a rugged training schedule in an effort to produce a future varsity championship team. The members of the team, though small in stature, are great in spirit, for in their encounters with bigger teams by grim determination they emerged victorious.

Two of the team's outstanding members are Sheldon Crawford, speedy little man and hurdler supreme; Gene Suacci, "Tyrone" of the track team and an able broad jumper. One could go on and on, and still have many stars to name, for every man in his own right is a champion.

"Bob," as he is known to his friends, one of the better players in the triple A league today, has played varsity baseball for four years, serving two of those years as captain. Last year, Bob played third base, but as the team was weakened through graduation, Coach Hill shifted him to shortstop.

The superb fielding ability of Antraccoli, which is nothing short of sensational, is one of the main reasons for the Buccaneers' winning the A.A.A. crown last year.

Chief among the advantages derived from Antraccoli's field generalship is his ability to instill in the rest of the team a spirit of fiery cooperation. He serves as the sparkplug of the team with his pep-
pery remarks.

Because of all of his achievements on the dia-
mond, Antraccoli is considered one of the most outstanding ball players and field generals Balboa has seen in many a year, and is almost a cinch to claim "All City" honors.

Eugene Hill, undisputedly one of the outstanding coaches in San Francisco, deserves recognition for the two championship teams which he has turned out for Balboa.

Pennant Winners Defend Crown

One of the main reasons why the spring term is always so important and interesting is that King Base-
ball takes the limelight in all the San Francisco high schools. Although the Buccaneers have won only three games and lost four, as the Galleon goes to press, their expert coach, Gene Hill, feels they still have a chance of getting into the O'Shaughnessy play-offs and winning the championship. The chance will not be possible unless they defeat the Washington Eagles in their one remaining game.

At the beginning of the season, Coach Hill de-
scribed his team as "superior" because of the return-
ing regulars. Bad weather postponed the Pirate's first two games, however, and threw the team off stride from which they could not recover during the re-
mainder of the season.

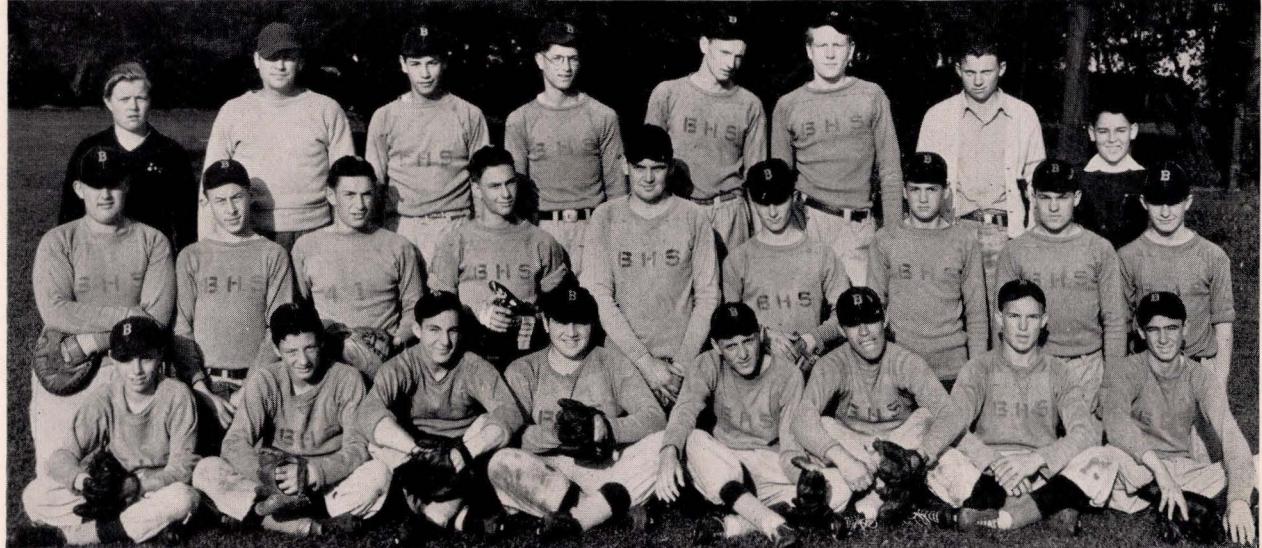

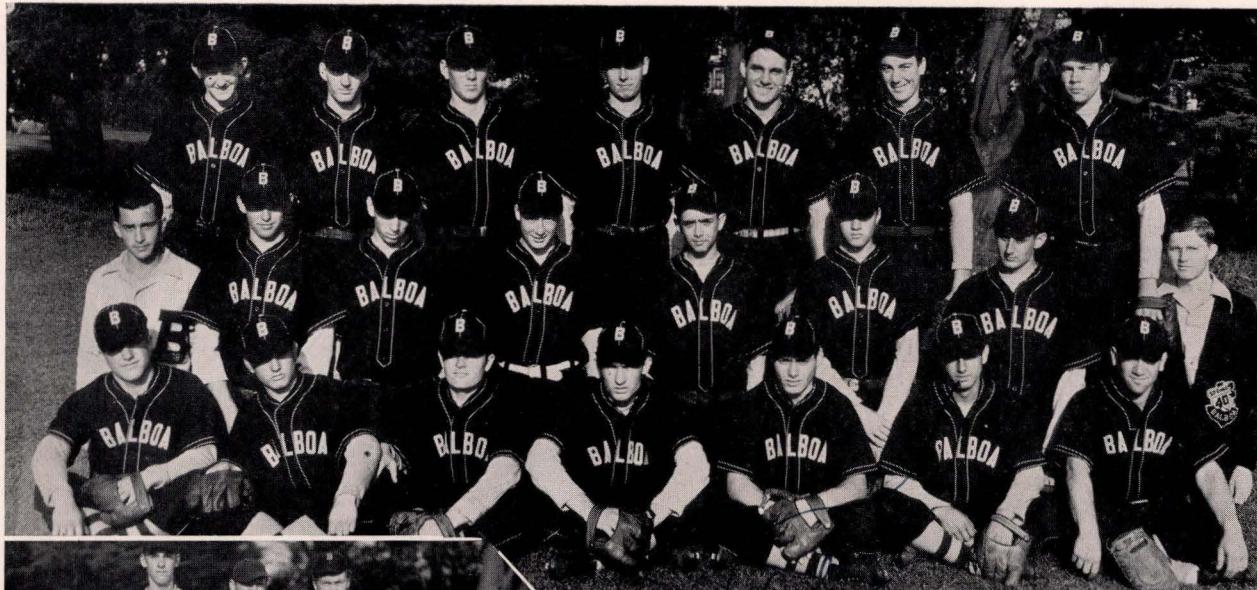

They dropped the opening game to the Mission Bears, but as a rejuvenated team they came back to down the Galileo Lions by a 4-2 score. "Old Man Defeat" stared the Buccaneer nine in the face again when they lost a heartbreaker to St. Ignatius by a 3-2

score. In one of the finest pitching duels of the sea-
son, Ward Russo outpitched Paul Orsi of Lowell to beat the Cards, 2-1. In the next prep encounter, the Bucaneers were nosed out by the Fighting Irish of Sacred Heart, 6-5.

Balboa's next opponent was the Commerce Bull-
dogs, one of the league's strongest teams. Facing "No Hit" Luscatoff, the defending champions lost, 6-1. Ward Russo hurled another game but the support given him was not up to Balboa's standards.

The Buccaneers then travelled to Funston to trounce Polytechnic to the tune of 12-0. Ed Flora pitched great ball for Balboa, striking out 14 Parrots, while his teammates gathered 12 hits, two of which were home runs by Captain Antraccoli and Pete Davis.

Although the 1940 team did not live up to advance expectations, it was always trying until the last out was made, and was one of the most spirited teams ever to hit the diamond. The Pirates lost Antraccoli, Davis, Wenner, Wieland, and Hastings via the graduation route, but they will be afforded a fine chance for the title next year.

You Make the Crew by Pull

Coach Granville Thomas and the "thirties" crew see that the Balboa boat is ship-shape before the start of the opening sprint races; and below, the Bucs' unlimited crew inch across the line ahead of Lick to gain a sweet victory.

Coach Thomas, by his interest in this vigorous sport, has brought Balboa's name up to the top of the list of San Francisco prep crews.

With added interest each year, and new schools entering crews, competition will increase, but as long as Balboa has Coach Thomas, championship crews from Balboa will be "first on the Pacific."

The Minor Sports Program

CREW

Balboa's varsity crew team is really going after that championship this year. After defeating Lowell by four lengths and defending champion St. Ignatius by nearly two lengths, the bold Buccaneers are training their sights on the Sacred Heart, Mission, and Galileo oarsmen. Of these three, the Mission Bears appear to be the toughest of the opponents. Thus, when the two undefeated crews, Mission and Balboa, lock oars, the struggle should virtually decide the 1940 championship. Varsity crew, led by coxswain Clarence Carlos and steered by tiny Steve Leonoudakis, pilot, is strengthened by two returning "vets", Rudy Marzi and Harry Michelsen.

Coach Thomas has the squad placed at points where they will do the most good for the team. At starboard are Stroke Ben McWhinney, Ray Scott, Al Clayton, Ernie Cohn, Bob Dillon, and Warren Haskins. On port side are Stroke Tom Reardon, Rudy Marzi, Harry Michelsen, Al Carstens, Tony Kuzmanich, and Jim Hardy.

Put them all together and you have Balboa's championship-bound crew.

TENNIS

Balboa's tennis enthusiasts, under the direction of Coach Leste, are getting a squad together for the annual competition on May 20. Nineteen boys have been playing after school on days that were wet, cold, and windy, hoping to be among the twelve players chosen for the tournament. So far, the "round robin" elimination system has been going along smoothly, and Coach Lester is sure to have a good singles and doubles squad to enter into the competitive tourney.

SWIMMING

Handicapped by lack of returning veterans as well as able swimmers, Coach Mitchel has had no easy row in his attempt to whip into shape a team capable of meeting other city squads in competition. Short distance swimmers claimed 30 of the 35 boys who turned out for practice, leaving few for diving and long distance events.

CREW CROWINGS

Varsity crew won the unlimited race on Washington's birthday over Lick-Wilmerding and are undefeated in 2,000 yard competition as the Galleon goes to press.

Balboa's 130-pound crew finished third in February 22 races, and should finish among the top four in the longer races later this spring. Clarence Carlos brings the crew to a forty-four stroke to win over Lick; and (below) shivers as he climbs out of the bay after the customary victorious coxswain's bath. Balboa's yell chiefs, Richard Fraher, Paul Postler, and George Zachariah.

Feminine Fancies

With many new ideas for the G.A.A. this term, Joyce Peckham fell in line as another very successful president of the Balboa Girls' Athletic Association. Assisting Prexy Joyce, and fulfilling the duties of their offices were: Dorothea Hurlbut as vice president; Bernice Gennai, secretary; Doris Jordan, publicity manager; Betty Eaton, yell leader; and Violet Serafini and Eileen Volpatti, assistant yell leaders.

Eight o'clock every Wednesday morning found the officers and managers of the various sports meeting to plan bigger and better things for the sports-minded feminine population of Balboa. Play day, dances, banquets, and tableaux, all high-lights in feminine social life, were planned and carried out successfully by the hard-working girls on the Athletic Board.

Ice skating, sport of spills and thrills. Irene Miller and Lorraine Smith are examples of the talent that was exhibited every Wednesday afternoon. The group was instructed by Mr. Charles Stein, sponsored by Miss Connell, and managed by June Gruber. Zoe Longfield, another Balboa miss, as shining as her skates, although not in the after-school group, skated off with second prize in the State competition.

They were all wet! Quite literally, and actually, were these swimmers who met at Jefferson Pool each week. Under the sponsorship of Mrs. Pardee, Miss Ligda, and Miss Todd, the three groups were guided to success in their splashings.

Grouped around their prexy are the G.A.A. officers: Doris Jordan, Dorothea Hurlbut, Joyce Peckham, Bernice Gennai, Betty Eaton, Eileen Volpatti, and Violet Serafini.

Three quiet young girls are Eileen Volpatti, Betty Eaton, and Violet Serafini. They also are the chief noise makers of the girls' activities.

Members of the G.A.A. board take time off from the problems of managing the girls' sports activities after school and smile prettily for the birdie.

Feminine Fancies

One of the favored sports of the spring term, tennis, was instructed and managed by Miss Connell and Norma Chiminello respectively. Only those who had learned the fundamentals of the sport were eligible so that it was possible to provide the fun of tournament games for the group.

Ambitious Balboa "golferettes" tramped over Harding Golf Course every Thursday with Mrs. Pardee and Virginia Brant in the lead.

Feminine "William Tells" and "Howard Hills" gathered on the field every Wednesday to prove their worth. Even if the arrow landed far from the bulls-eye, fun galore was provided by the archery group under the sponsorship of Miss Bell, who was assisted by Katherine Eterovich.

Because Badminton has grown so popular, it was divided into three groups, sponsored by two outstanding players, Miss Powell and Miss Todd. With such coaches as these, it is small wonder that the girls really learned the game.

Inter-class baseball games provided keen competition, with the seniors walking off with the title of "champs" as usual. The seniors are managed by Margaret Osuna. The "sluggers" were divided by Miss Bell according to classes to create competition between the four groups.

Sponsored by Miss Ligda, who is assisted by Martha Holdener, manager, the volleyball group met on the courts on Wednesdays, for lots of fun and fast playing, and to gain a real knowledge of an exciting sport in which to participate.

Probably the reason there are so many girls' activities at Balboa is this group of girls' physical education teachers: Miss Connell, Mrs. Pardee, Misses Bell, Powell, Ligda, and Todd.

Among the favorite girls' sports is archery. With bow and arrow in hand, Pat Hubbard stands poised ready to shoot the arrow right to the bulls-eye on the target.

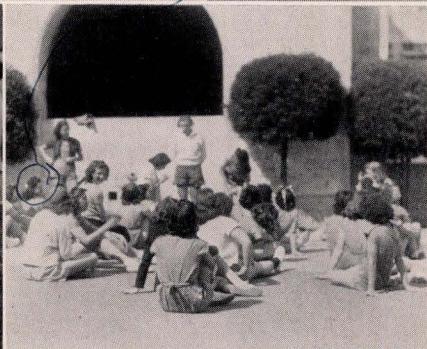

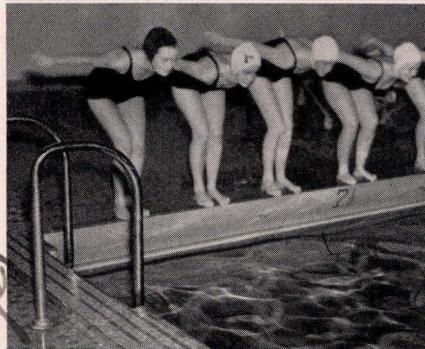

You can't hide a sheep in a wolf's clothing. Joyce Peckham and May Edwards should take off those boys' Block "B" sweaters, because we know.

Winning of Honor School rating has been in the mind of every cadet during the spring '40 term, for that award means superiority in practical and theoretical military training.

Instead of the usual spring competition, an R.O.T.C. day, held at Treasure Island, provided an op-

portunity for display of tactics and ability by competitive units of battalions of all city public schools. Balboa's group gave a creditable exhibition.

All companies are still struggling to win the Marshall trophy, but since the winner is not determined until almost the last day of school, no announcement is possible as the Galleon goes to press.

Major Lewis of the Presidio, Commandant of all R.O.T.C. units in San Francisco, reviews with Lt. Minium, Balboa's own instructor, the battalion as it passes in review preliminary to honor school competition.

In their return from officers center, some of the officers knew that their left foot was where their right foot should be, but how could they get that message to the cameraman? They didn't. Just excuse it please, and charge it to the camera for the Buccaneers know how their military boys can "strut their stuff."

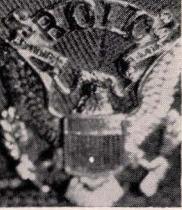

Staff Sergeant Harrigan who carries the national colors and Staff Sergeant Currie with the battalion colors, step off in proper manner about to pass in review before Lt. Colonel Howard, top man in the R.O.T.C.

BALBOA . . . First On the Pacific

Little did the graduates of Balboa, when they were active in the life of the school, framing the constitution, establishing traditions, and in general paving the way for the Balboa that was to be thought of as "First on the Pacific," realize the value of the work they were engaged in. As the last units of the buildings were erected, and the temporary "shacks" moved away, a stately educational institution came to be known as "The Friendly School," so-called by the late Miss Hazel Fisher, who was then the school's vice principal.

All who come upon the campus, whether they be students, graduates, or merely visitors who are unacquainted with its customs, cannot help but feel its friendliness, or to be conscious of the beauty of the place. Beautiful palms, of which there are none lovelier even at the world-famous Palm Springs, invite friendly conversations beneath their swaying branches. Even the Sun Dial, a gift of one of the graduating classes causes a tug at the heart-strings of those who have passed through Balboa's portals, for on it is inscribed a thought which could well be one for all readers to pause for a moment and consider: "Remember only the sunny hours." How happy life could be for all if only happy memories could be recalled!"

Buccaneer Personalities

Martha Holdener, that popular miss who does nothing more than upset applecarts, did that very thing again, when she won the senior election and rode victoriously into the presidency of the graduating group. Jim McGill, little "Freddie Bartholomew" who has stolen many a show on the auditorium stage found one show he could not steal when he came up against Martha in the finals, so he's again the good sport that is so typical of the entire McGill clan, and tells the new prexy that after all it was a good, clean fight, and he is behind her 100 per cent.

That campus romeo "Red" Jensen, who is so bashful that he runs at the sound of a girl's step, listens eagerly to the amusing stories being told by Captain Frank McIntyre of the casaba varsity. "Well," drawls "Red," "maybe you did develop a lot of vim, vigor, and what have you by throwing that old melon through the hoop, but if you ever want some real practice in developing muscle and personality like mine, just try tackling big guys like Pete McPhail of Commerce or Bill Joslyn of Lowell and if there's anything left of you, it will swell up with pride, believe me."

And on the Opposite Page . . .

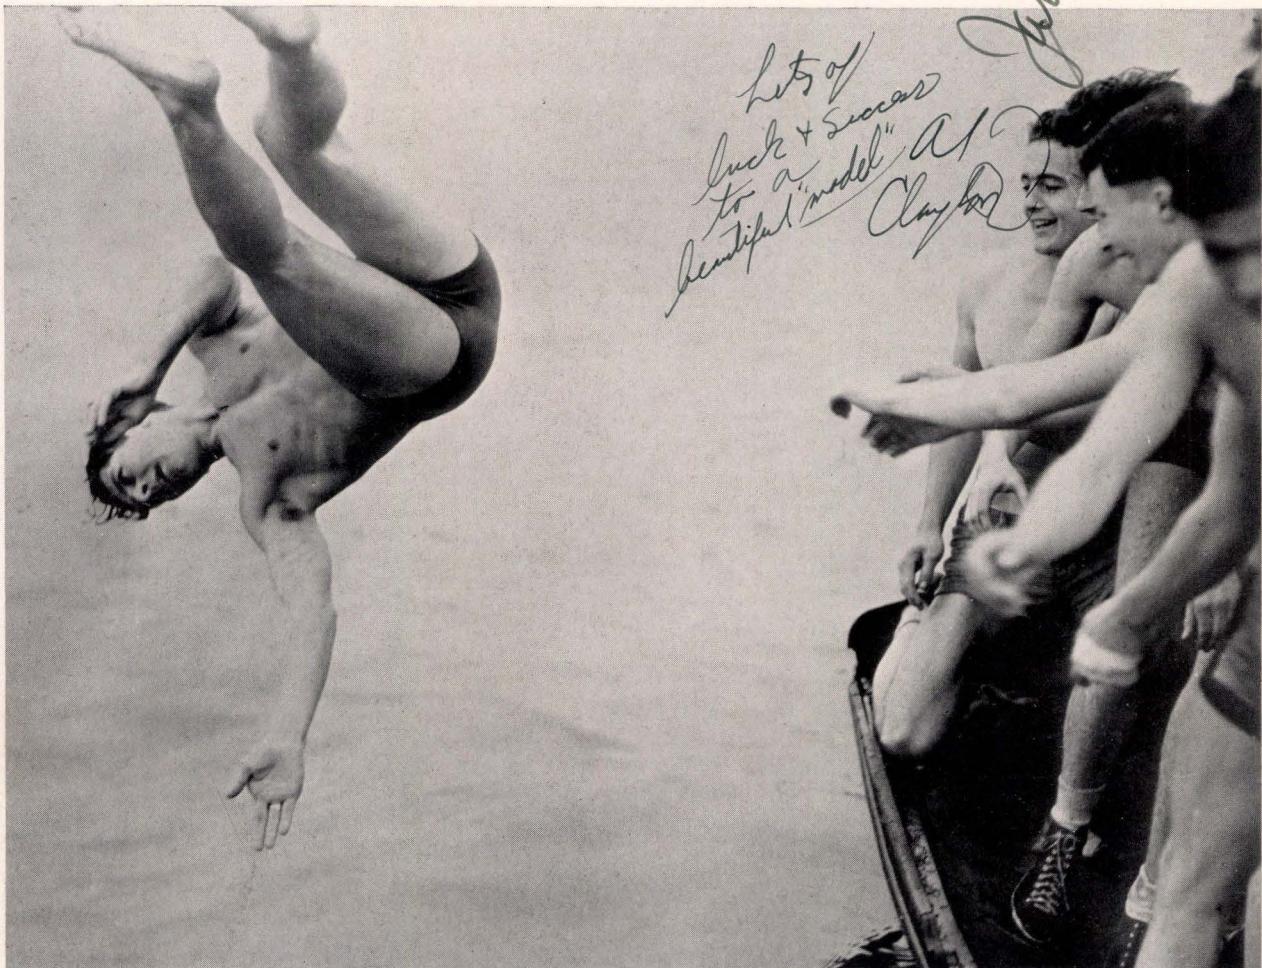

Ah, spring, beautiful spring! But what this season has done to certain leading citizens of the campus is mighty peculiar, the evidence of which is on the opposite page. For instance, Jimmy Hughes suddenly decided he was the muscular type, but brother Jack and "Chubby" Francis just laughed and laughed. Even "Vinnie" Romelfanger was caught by the rugged spirit and proceeded to rough up Harry Nolan, just as Ramona Castell and Jeanne Rutherford tripped into view. As usual Lydia Rydman and Esther Rovai had their thoughts on fashions and campus gossip.

Who have we grinning at us? None other than the famous impersonator, Harold Vawter, whose "Henry

Aldrich" always provokes a laugh. Fellow block "B"ers Jack O'Brien and Walt Jordan seem a trifle on the sentimental side. Wonder how much Jack wants to borrow? Ilene Backman and Elma Oddstad, past and present editors of the Galleon, come to the conclusion that they are right and the world is wrong, while Gladys Diamond and Eunice Tegland decide to argue the point.

Ward Russo serenaded songstress Seemah Battat with a few hot notes, but Seemah neatly put him in his place with a few high notes of her own. "Shame, shame on Ray," teases Pat Castellano as he observes Ray Esposto's drooping socks. "So undignified."

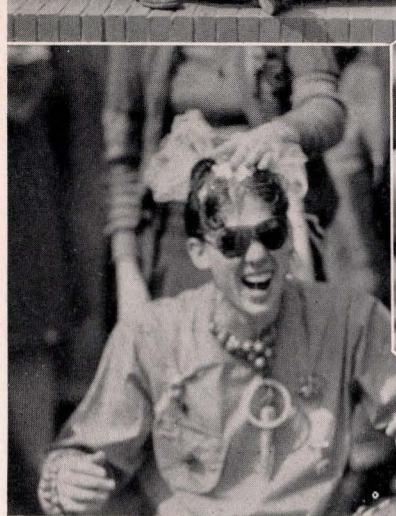

Dunkings...Water and Egg

After winning the annual crew races, Balboa's oarsmen proceeded to "dunk" their coxswain. As you can plainly see, tradition and coxswain are passed from hand to hand.

The cameraman catches Miss Klaus in an informal shot taking a spin around the campus.

Noonday finds Honor Society members with their noses to the ground during their semi-annual initiation. Everything from smoked glasses to smelly onions held the onlookers spellbound. The unlucky number (13) of new members, after many embarrassing moments, was added to the list of Honor Society members. Kay Kreifels awarded Paul Postler an egg shampoo, while Bill Steenberg, was offered a tasty (?) onion by smiling Esther Rovai. As is the fashion of the year, Eleanor Barbieri laid her heart at Jim McGill's size 12's only to be refused. Bill Steenberg, Balboa's golden-haired boy, put his heart (and tongue) into the gooey business of licking up the contents of a broken egg. More than one red nose was in evidence after that different kind of egg-rolling contest. Even jovial Mr. Chase joined in the festivities of the day and held two noisy Charlie McCarthy's on his knees.

Here we find Mr. Treasurer and Miss Assistant Treasurer . . . in other words . . . Jim Skinner and Florence Mitchell . . . as members of the Business Office Staff both are qualified to keep the accounts of the Student Association . . . though business occupies most of their time, this Hi-Y'er and Tri-Y'er manage to squeeze in a little pleasure to their daily routine . . . Jim, incidently, is half of the double trouble team—the Skinner twins.

Balboa's basketball player . . . Bob O'Rourke . . . has no time to look at the little birdie in the camera . . . when lovely red-haired Marilyn Wikle is sitting next to him . . . you must admit, Marilyn, that he has a contagious smile . . . dimples, too . . . couldn't you give him one of your "come hither" glances? . . . Bob's out to keep the tradition of having star basketball players in the family . . . while Marilyn is out to uphold her reputation of being a heartbreaker.

A quiet young man until it comes to public speaking, Ed Goldman proudly displays to Janet Crescenti a wrist watch which he received for winning one of the many oratorical contests in which he competed . . . he couldn't show the trophy from the State Oratorical Contest . . . she'll have to believe that story . . . will soon have a room full of cups and medals . . . both Janet and Ed have been prominent in class activities . . . Ed's latest scalp being the presidency of the high sophomores.

Campus Romeo and laughing lady . . . these words make a long story short . . . but describe Norman Barnes and Anna Laterza . . . Norman, gentleman heart-breaker, was a mighty end on the Balboa eleven . . . and received a Block "B" for crew ability . . . both are prominent Buccaneers about the campus and have served on the Board of Directors . . . and have they friends? . . . more than you could write about . . . won by Norman's genial smile and Anna's lovable laugh.

Marin-Dell milk is full of the nourishing elements that make little bodies grow strong. Be sure that your children have plenty of rich, fresh Marin-Dell milk.

The logo for Marin-Dell Milk is a shield-shaped emblem. The top half of the shield contains the word "MARIN-DELL" in a bold, sans-serif font. The bottom half contains the word "Milk" in a large, stylized, italicized font. A curved banner or ribbon is wrapped around the bottom of the shield, containing the text "SOLD ONLY AT INDEPENDENT STORES" in a bold, sans-serif font.

Two popular sophomores have a lot in common when it comes to class activities . . . Don Marosky, better known as "Mouse," and Katie Eterovich talk over the affairs of the day . . . which probably includes the possibility of their running for office again . . . could this really be the subject of their conversation . . . the coy expression on Katie's face makes one wonder . . . skipping official business, Don's Block "B" seems to be of interest to Katie . . . Katie says that some day she will have her own Block "B" which she will proudly display.

Russell Jacobson should prove good at story telling, judging from his picture and the practice he had yelling into a megaphone last term . . . Girls' Council Prexy Margaret Abbott is also representative of the H-11's . . . Russell is as popular with the feminine hearts as Margaret's smile is with the masculine population . . . both are right in the thick of the fray . . . whether it's cake eating for "Marg," or dancing for "Russ."

Here's that personality kid, Dan Henry, the life of every party . . . maybe he would like to be the light of Kay Kreifels' heart . . . our little girl-friend just has to show some amusement at his jokes . . . and puns . . . with that fetching look in his eyes . . . "Big Boy Dan" needs a little friendly advice because our little "Tiny's" whole heart belongs to her handsome hero, "Les" . . . and even though Dan is awfully sweet and humorous, so is "Les."

"Just call me 'Rugged,'" quirps Johnny Russo, but Eleanor Barbieri looks skeptical at the thought . . . Johnny has crowded much into his Balboa sojourn and this term is serving as athletic manager . . . a safe bet for even more popularity and prominence in his last year . . . petite Eleanor has carried a load of Buccaneer politics on her shoulders and may well be proud of her record . . . is even considering throwing her hat in the Student Association election ring . . . which is probably the reason for the smile.

Smiling at each other instead of the birdie in the camera are Jack Bramy and Eileen Volpatti . . . Jack, the little fellow with a big voice, has proved that he is going places . . . and has already laid claim to class presidency, Block "B", and dramatics . . . while Eileen has been prominent in G.A.A., C.S.F., and Galleon staff work . . . these two dark, curly headed Buccaneers will add many new names to their roster of friends before they sign off at Balboa.
