

1967 FALCON

Dedication . . . To

Mr. Vance Osburn

This year marks the 17th year that Mr. Osburn has been at Flowery School. He started teaching in 1950 at the "old" Flowery on Highway 12. Early in his teaching career Mr. Osburn had taken a great interest in the youth of Sonoma Valley. He has worked with the students at Flowery with tremendous energy. It is interesting to note that at one time he coached the girl's basketball team.

When the present Flowery School was built in 1952, Mr. Osburn assumed his teaching duties in the new school. In 1958, he was appointed District Superintendent Principal of Flowery School. This year marks Mr. Osburn's eighth year as principal.

Mr. Osburn has continued to work for the students. They are welcome in his office at all times.

Now Mr. Osburn embarks on another adventure - that of principal of the new Altimira Intermediate School. He will assume the leadership for educating and guiding all 7th and 8th grade students in the Valley.

Thus, Mr. Osburn has "attended" two Flowery schools, and has worked with and graduated thousands of children. His name is synonomous with Flowery School. Such achievements should not go unrecognized. It is with honor that the yearbook staff and the 1966-1967 student body of Flowery School dedicate the 1967 Falcon to Mr. Vance Osburn, principal of Flowery School.

Mr. Osburn inspects the new school site during demolition of old buildings.

In this "rare" photo, Mr. Osburn is eagerly coaching the girl's basketball team in 1952.

During Mr. Osburn's 17 years at Flowery School, he has found that working with the students has been the most rewarding.

Hours and hours are spent pouring over and revising blueprints so that the dream of the new Altimira School will become a reality.

FUTURE

A Message From The Principal of Altimira School

Jose Altimira School will open its doors for the upcoming school year. For the first time in the educational history of this immediate area, all of the students in grades seven and eight will be together. Thus, not only a school pattern, but a community pattern will change.

You will be the first student body. You will write the first constitution. You will select the school colors and mascot name.

You will establish the initial behavior and scholastic standards of the School. Set your standards high. Maintain those standards.

Establish the pattern for the future. Establish new and inspiring goals of education for Sonoma Valley. Not based upon what has been before, but you must reach for new goals and understanding. This pattern will use new materials, ideas and the new school facilities

Only ideas, materials and industry on the part of the individual and the community can make changes for the better.

Jose Altimira School will provide the facilities. You can provide the rest. Will you?

Next Year . . . Two Schools Become One

An empty field. . .

leveled ground. . .

OWERY

the finished producted.

Both Flowery and Prestwood are over-crowded and have inadaquate facilities. The new Altimira Intermediate School will offer a new environment which will rival the best schools in northern California. Opening a new school will be a unique experience for next year's seventh and eighth graders.
