FOREWORD

We have chosen "Around the Clock" as the theme of this year's annual and have set our clock to tick off the hours in five divisions: the regular school day, from 8 o'clock until 3; the sports and extra-curricular activities, from 3 until 6; the school deserted, from 6 until 8; the night events, from 8 until 12; and the dreams of what will come on the morrow, from 12 until 8.

We hope that you will relive the joyous hours spent in P. H. S. as you go "Around the Clock" with us.

ADMINISTRATION

SUPERINTENDENT'S MESSAGE

Look about you, and you will discover that the world is full of confusion and turmoil. Abroad, empires are tottering, and at home there are problems of labor, production, and unemployment. These conditions bring about a feeling of insecurity. Life seems more complex and uncertain than it did to your parents when they were your age.

If you are to have peace and happiness, you must barricade yourself against these problems. As the clock represents continuous time, so must your protection be twenty-four hours of the day. Cultivate constant health, obtain all the knowledge possible, search for the truth, and steady yourself by faith in God. Let these be your cloak of protection, and you will be amply rewarded for the effort put forth to secure them.

—DAVID M. DURST.

MY MESSAGE TO YOU

There are some people who have no regard for time, and ultimately find themselves in the ranks of failures. They are always late and they stay too long, thus upsetting not only their own lives but the lives of those around them. The reason for this is, as psychologists have explained, that they are pronounced egotists, or at least exceptionally egocentric—so intent upon their own little interests that the world goes by and they are left stranded and somewhat bewildered, wondering why they are so badly treated. What they cannot understand is the fact that most of their time is spent in an utter disregard for other people and in pursuit of their own whims and fancies. As the clock goes 'round, we should strive to live each minute fully, and to live one minute at a time. Around the clock, our time should be carefully budgeted—time for work, time for reverent worship, and time for play. If we so budget our time, we shall have a due respect for the passing moment and live most fully an abundant and balanced life.

—ELLIN TRUEBLOOD.
