LIBRARY OF
STATE DEPARTMENT OF AGRICULTURE
SACRAMENTO, CALIFORNIA

We've seen a great many changes in this community since 1874 . . . and you've seen many changes in us (in the last decade, a fine new building; and, constantly, revamping our departments to make shopping here more pleasant and convenient). But in certain fundamentals, neither of us has changed. YOU are still delightful customers to serve . . . among our most valued; and WE still earnestly believe in and try to adhere to the principles set down by our founders:

"Were you the merchant and we the customer, we feel there would be no changes in the principles and practices of this house."

Weinstock - Lubin & Co.

Margaret Lee will shop FOR you; write or telephone her!

SACRAMENTO COUNTY

"The Heart of California"

Industry, agriculture, and mining combine to give Sacramento County a much diversified source of income. This diversity has in no small measure been responsible for the leading position which Sacramento occupies among the counties of California.

INDUSTRY. The major industrial activity is concentrated in the City of Sacramento, the county seat of Sacramento County. However, there are a number of large industrial plants engaged in processing various agricultural products which are scattered throughout the county.

A recent survey reveals that 478 manufacturing plants, employing 15,460 wage earners, have an annual payroll of \$10,101,000. These manufacturing plants process materials which cost \$36,082,971, having a total value in the finished product of \$63,883,097. These figures are conclusive evidence of the industrial importance of this county.

AGRICULTURE. Agriculture is the most important source of basic income in Sacramento County. The most recent figures compiled by the County Agricultural Agent's office, for the year 1938, reveal that Sacramento County's farm income for that year was \$16,500,000. The largest single unit of farm income was the livestock and poultry group, which received \$6,108,000. Field crops occupied an important position, producing a total income of \$4,454,000. Fruit and nuts ranked next, with a production of \$3,100,000; while truck crops produced \$2,800,000. These figures, while the latest available, do not truly reflect the dollar and cent value of agriculture in this county, since prices on virtually all agricultural commodities were twenty per cent off in 1938 and production of certain large acreage crops was materially curtailed due to adverse weather conditions.

It is interesting to note that Sacramento County and the area immediately contiguous to it produces:

- more pears than any like area, 10,000 acres,
- over 80 per cent of the world's supply of canned asparagus,
- over 90 per cent of California's rice,
- over 55 per cent of California's barley,
- over 50 per cent of California's sugar beets,
- over 60 per cent of California's wool,
- over 50 per cent of California's almonds, oranges, lemons, and grapefruit among first to reach markets of the world,
- twenty different varieties of fruits and nuts, produced in commercial quantities,
- peaches, plums, prunes, apricots, cherries, olives, leading deciduous fruits,
- every known American vegetable.

MINING. Sacramento County ranks tenth in the state in mineral production; \$4,230,689 was the 1937 value of minerals produced in this county. The major portion of this production is gold; brick and hollow building tile to the value of approximately \$100,000 and approximately \$500,000 of miscellaneous stone are the other mineral products included in this total.

The Sacramento Chamber of Commerce is the active representative of the commercial, industrial, financial, and civic interest of Sacramento City and County. This organization can supply complete and authentic information on matters relating to Sacramento and Northern California. The following booklets giving factual data regarding Sacramento County and the Golden Empire section of California, can be obtained by writing to Arthur S. Dudley, Secretary-Manager, Sacramento Chamber of Commerce, located at 917 Seventh Street.

CONTENTS

ALPHABETICAL LIST—All Heads of Families or House-Holders residing in Sacramento County, not including residents of the Cities of Sacramento and North Sacramento, Business and Professional Individuals and Firms, Schools, Churches and other data.

MAPS—Every Rural Route in Sacramento County.

CLASSIFIED—Businesses, Professions, Churches and Schools.

COUNTY—Separate Directories of Each Town.

¶ In this, our first edition of Sacramento County Rural Directory, the publishers have earnestly endeavored to supply a source of information which will aid in overcoming the difficulty experienced in contacting out-of-town residents.

¶ All information contained herein has been compiled from data gathered by house-to-house canvass, the more rapid growth of some districts necessitating re-canvass.

¶ More than half the people whose names are listed in this Directory are served by Rural Mail Carriers over definite Routes. These Routes have been accurately Mapped and Box Numbers located thereon, making it possible to determine almost the definite location of any Rural Route address in the County. Addresses other than Rural Route are mostly of people who live in or near the various towns of the County.

¶ That "Greater Demand for our Product can be created only by Greater Service Rendered" is the conviction under which we have labored, and we sincerely trust the result of our efforts will prove not only essential but indispensable to the community represented.

The California Highway Patrol

Asks Motorists To Observe CORRECT SIGNALING

Hand and Arm Signals.

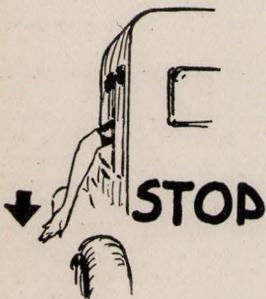

All signals given by hand and arm must be given from the left side of the vehicle in the following manner and shall mean as follows:

a. Left turn—hand and arm extended horizontally beyond the side of the vehicle.

b. Right turn—hand and arm extended upward beyond the side of the vehicle.

c. Stop or sudden slow down—hand and arm extended downward beyond the side of the vehicle.

Signals Required Before Turning.

All signals of intention to turn right or left must be given continuously during the last fifty feet traveled by the vehicle before turning.

Signals Required When Stopping or Slowing.

No person shall stop or suddenly slow down a vehicle on a street or highway without first giving the appropriate signal.

Arm signals are for your protection. Be sure to give them correctly and for at least the full fifty feet required by law.

Collection Facts

Many business failures are due to uncollected accounts. Debtors delay, forget, move, die and accounts outlaw. Perhaps your debtor's inability to pay you may be because they are paying your competitor's collector.

If accounts are listed for collection as soon as they are past due a large percentage may be turned into cash. The longer accounts are neglected the greater the loss.

Safeguard your business by placing your accounts with

THE NATIONAL MERCANTILE AGENCY

Nicolaus Building, Sacramento
Operated by R. H. Bullock and Family
Collection Pioneers, 1910 to 1939

This firm has the equipment to go after the debtors quickly, efficiently and thoroughly.

Act before your accounts lose their value, and send in a list of all your delinquents now.

This Collection Agency Is In Business To Help You.

THE NATIONAL MERCANTILE AGENCY

R. H. Bullock, Owner and Manager

Nicolaus Building, 1020—8th St.

Sacramento, Telephone Main 5193

The above firm is licensed under the Collection Agency Act of 1927 and is bonded to the State of California.

Since 1910 when R. H. Bullock started in the collection business, statements and remittance checks have been sent out with unfailing regularity each month to all clients for whom collections have been made, and the net proceeds of collections amounting to more than two (2) million dollars have been disbursed to the business and professional men of Northern California and Southern Oregon.

The office is equipped with a large modern fire-proof Safe Cabinet to protect all the documents and notes and steel Kardex files are used to keep clients' records in a systematic manner.

Client's monies deposited in a special Trust Account with The Capital National Bank.

Missing debtors traced to any part of the country and when they are located the accounts are forwarded to bonded representatives.

Some of the clients (customers) have listed accounts for collection every month for almost a quarter of a century.

A welcome 64 years young, neighbors!

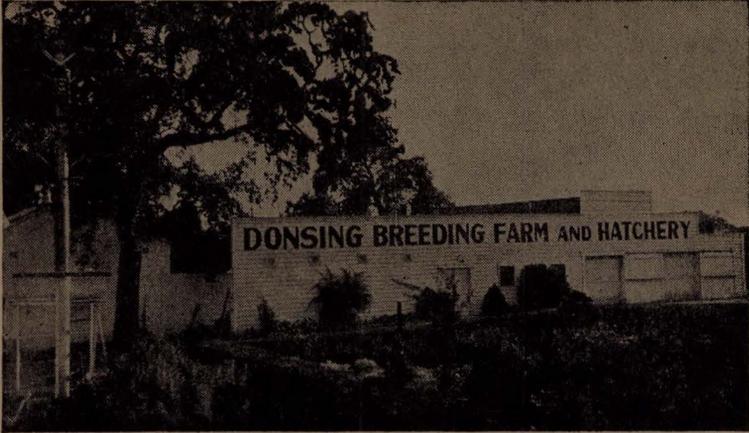

We've seen a great many changes in this community since 1874 . . . and you've seen many changes in us (in the last decade, a fine new building; and, constantly, revamping our departments to make shopping here more pleasant and convenient). But in certain fundamentals, neither of us has changed. YOU are still delightful customers to serve . . . among our most valued; and WE still earnestly believe in and try to adhere to the principles set down by our founders:

"Were you the merchant and we the customer, we feel there would be no changes in the principles and practices of this house."
