

You have not seen Oakland unless you have seen KELLY & CO., 414 Seventh Street.

Mr. W. L. Barnes the premises lately occupied by him on the corner of Washington and Second streets, thus securing a frontage on three streets. The new addition is a story and a half high, and in superficial area fifty by a hundred feet on First Street, at a cost of \$3,000. The mills contain all the latest improved machinery, thereby enabling the proprietors to supply everything that may be required in the manufacture of doors, sashes, house trimmings, etc.

THE PACIFIC LUMBER AND MILL COMPANY is a corporation, having its principal place of business at Oakland Point. The capital stock is divided into five thousand five hundred shares, all of which have been issued \$55 per share having been paid in, so that the capital invested amounts to \$302,500. In addition to the land and buildings at Oakland Point, the company own three thousand acres of timber land and a saw-mill in San Mateo County; a flume from this land to Pigeon Point, seven miles long, and a wharf and warehouse at the latter named place; also thirty-four hundred acres of timber land and a saw mill in Lake County. The company manufacture all kinds of house and mill work, and furnish lumber, railroad ties, posts, and cord wood at any point on the coast. J. W. Pearson, President and Treasurer.

BLAIR'S NEW STAIR FACTORY on the corner of First and Grove streets. Its dimensions are seventy-five by one hundred and twenty-five feet, two stories high. Mr. Blair commenced business here when the patronage of the town did not offer employment for more than half his time; he now employs eighteen men, and not only supplies the local demand but ships his stairs to various portions of the State, and has almost exclusively the trade of Los Angeles. His portion of the building measures fifty by seventy-five feet, a forty horse power engine supplies the power. The California Bridge and Building Company have a share in the building, in extent fifty by fifty feet, and an altogether independent establishment, although for the sake of economy uniting in building with Mr. Blair.

SAMM'S FLOURING MILL, located on the corner of First and Clay streets. This is a frame structure, forty by sixty feet, and two and a half stories high, with engine house, forty by forty feet, attached. The buildings alone cost \$32,000. It is furnished with the most modern and improved machinery, has five run of stone, with a capacity of two hundred and fifty barrels of flour and fifty tons of ground barley per day. The mill is now running, and turning out a superior article of flour which is finding a ready demand in the home market. It stands immediately in front of Merritt's Wharf and the Central Pacific Railroad track, so that the shipping facilities are of the most convenient description.

THE CLINTON FLOURING MILLS, located on the corner of East Eleventh Street and Twelfth Avenue, East Oakland, were erected in 1854. Weston & Welch are the proprietors. The mills contain six run of thirty-inch stones, and have a capacity of two hundred and twenty-five barrels per twenty-four hours. The engine by which the machinery is propelled is fifty horse-power. The firm manufacture flour, hominy, oat and corn meal, etc.

THE OAKLAND IRON WORKS, Ives Scoville & Co., proprietors, are located on Second Street between Washington and Clay. This firm is engaged in the manufacture and repair of different kinds of machinery, steam engines, pumps, windmills, etc., and pattern and model making. They also manufacture the Climax Side Hill Plow, all steel and wrought iron, which they claim excels all others in lightness, strength, and durability.

THE SAN ANTONIO PIONEER POTTERY, Daniel Brannan, proprietor, is located on the corner of East Twelfth Street and Seventeenth Avenue, East Oakland. This establishment has recently been enlarged to enable the proprietor to enter largely into the manufacture of his patent drain

GORDON'S Ice Cream Manufactory, 469 Ninth Street, Oakland.
