

AGRICULTURAL IMPLEMENTS AND MACHINES.

Ames Plow Company,

Quincy Hall, Boston, Mass., 53 Beekman St., New York City.
MANUFACTURERS AND DEALERS.

SOLE MANUFACTURERS OF THE

BOSTON STEEL CLIPPER PLOWS,

Knox's Patent, with Cast Steel, and Session & Knox's new Patent

HARD STEEL MOULDBOARDS.

These new Hard Steel Plows combine the lightness, beauty and easy draft of the Cast Steel Boston Clippers, with a wearing surface far exceeding anything heretofore manufactured. The Mouldboards are hardened perfectly, yet, possessing *Malleable Centres*, the toughness is retained by which all liability to breakage is avoided. By this process a greater degree of hardness is obtained than ever before known in Plow-Mouldboards. They are made with the most perfect forms and the highest polish, scouring in any soil, and in durability surpassing all others.

Genuine Eagle Cast Plows, Gang Plows, Cultivators, Harrows, Horse Powers, Threshing Machines, Headers, Reaping Machines, Hay and Manure Forks, the Perry Gold Medal Mower, the American Hay Tedder, Burt's Self-Adjusting Steel Tooth Horse Rake, Ames' Shovels and Spades, Scythes, Axes, Etc.

Factories at Worcester and Groton Junction, Mass. Particular attention paid to execution of Orders for Foreign Markets and the Pacific Coast.
