Alta, Salt Lake Co, P O 26 miles s e of Salt Lake City, is in the Little Cottonwood Mining District, and the seat of the celebrated Emma, Flagstaff, Vallejo, Illinois, and other mines, which have produced great quantities of bullion, and created a sensation in the world. These mines have given the town great activity, though it is difficult of access, and poorly built. In winter and spring the cañon is rendered almost inaccessible by snow, and avalanches of the most terrifying character are frequent, coming from the precipitous mountain sides, and sweeping to destruction all within their course. Many lives and much property are thus lost each season.

Beaver, Beaver Co, P O and County seat, is an incorporated city of 2,000 inhabitants, in the southwestern part of the Territory, on the principally traveled road leading from Salt Lake through the southern settlements to the Colorado and Southern California, and is 223 miles distant from the capital. The town lies in a valley between the Wasatch and the Iron ranges of mountains, and is surrounded by a fertile agricultural section. In the vicinity are the Lincoln, Star, and San Francisco mining districts, producing gold, silver, lead and iron in large quantities, and rapidly advancing the prosperity of the place. Good schools are maintained, and saw, flour, woolen and planing mills are established with other branches of manufactures. Many good and substantial brick and stone buildings have been erected within the past few years, giving the stirring little city quite a metropolitan air. The U. S. District Court for the First District of Utah is held at Beaver. One newspaper, the *Enterprise*, is published weekly.
