

## BRANCH LONDON MEDICAL and SURGICAL INSTITUTE

629 CLAY STREET, San Francisco, Rooms 5, 6, 7, 8, 9.

### DR. E. J. PRING, M. R. C. S., Eng.

#### TO THE PUBLIC.

It is not usual for a physician to issue an advertisement, but at the present time, when "charlatanism" is so rampant, something should be done to stop it, and if the distribution of these few lines will help to do so, by bringing before the community the address of a qualified physician, the doctor's object will be effected. It may cut the tender sensibilities of some, who consider it "derogatory" to advertise, but in the opinion of the doctor it is one of the surest methods of stamping out the evil.

OFFICE HOURS, from 8 to 12, 1 to 4, and 7 to 9.

#### A SPECIAL ADDRESS TO THE NERVOUS AND DEBILITATED,

Whose sufferings have been protracted, and whose cases require prompt treatment to render existence desirable. Reader, this article may not concern you at all. If you have never suffered from disease of the urinary organs, it is not necessary for you to read this. If you are suffering, or have suffered, what effect does it produce on your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver or urinary organs or kidneys frequently get out of order? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel listless, moping, tired of company, of life? Do you wish to be left alone—to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Do you often feel ashamed of yourself, thinking everybody that looks at you knows what is the matter with you? Is the luster of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, knees weak, and have but little appetite, and do you attribute this to dyspepsia or liver complaint? Did you ever tell your doctor that you had suffered from badly cured disease? Perhaps you never thought of confiding these things to him; and if you had, it is a question whether his modesty would have allowed him to question you closely on the point for fear of offending you; and if he had expected anything of the kind, being your family physician, he durst not for the world have hinted at the thing, for fear of your becoming indignant and insulted.

To the young, middle-aged, and even old, who are destroying that physical strength, and mental happiness, or who are weakened by the folly of the past, why do you suffer when you must know the sure result if you allow the disease to ruin and debase you, mind and body? Readers, be warned in time; let no false modesty keep you from making known your troubles and receiving a sure and lasting cure. I have cured thousands, and will cure you if you will call at once. A short time under my treatment will make you a new man, and send you forth into the world an honor to your sex, and, I trust, a blessing to mankind.

#### LADIES.

DR. PRING has devoted much of his time to the study of diseases peculiar to your sex, and knowing that you are subject to a great amount of suffering, that delicacy on your part, in not making it known, has a strong tendency to prolong, he, as a physician, (consulted daily by numbers of ladies,) says to you, come, try his treatment, being better and far more successful than that usually adopted. Those languid, tiresome sensations, causing you to feel scarcely able to be on your feet, that continual strain that is constantly undermining your system, the loss of all your former elasticity, irregularities and obstructions to the proper and healthy workings of your system and driving the bloom of youth prematurely from your fair cheeks, succumb to the doctor's unrivaled treatment. Consultation free. You will receive a competent opinion in every case. If you should prefer consulting the doctor by letter, be assured all communications will be strictly confidential.

This card is especially addressed to sufferers from Nervous Debility and all diseases of the nervous system resulting from exhaustion of nerve power, the effect of indiscretion. Under the doctor's new special treatment of nervous debility, mental and physical depression, palpitation of the heart, noises in the head and ears, indecision, impaired eyesight, memory, indigestion, loss of energy and appetite, pains in the back, timidity, dizziness disappear, and the depressed system soon acquires its normal health and strength, secures long life, and the infirmities of old age are avoided. Thousands of sufferers have been restored to health after all remedies have failed.
