

**464 ELEVENTH ST., OAKLAND.**

If you cannot resist the temptation to look at the stars late or gawg at the evening, a distance of 10 inches, your eyes will be sore and you will need help. Your sight can be improved and your eyes can be made to look at the stars without so long a rest. There is no danger of seeing too well, so long as the point is not too near the eye. There is no danger of seeing too well, so long as the point is not too near the eye. There is no danger of seeing too well, so long as the point is not too near the eye.
