

### Directions.

1. When the weight of any publication exceeds eight ounces, the same progressive rate of postage laid down in the above table must be charged.

2. Publishers of newspapers and periodicals may send to each other, from their respective offices of publication, free of charge, one copy of each publication, and may also send to each actual subscriber, enclosed in their publications, bills and receipts for the same, free of postage.

3. Post masters are not entitled to receive newspapers free of postage under their franking privilege.

4. If the publisher of any newspaper or periodical, after being three months duly notified that his publication is not taken out of the office to which it is sent for delivery, continues to forward such publication in the mail, the post master to whose office such publication is sent will dispose of the same for the postage, unless the publisher shall pay it; and whenever any printed matter of any description, received during one quarter of the fiscal year, shall have remained in the office without being called for during the whole of any succeeding quarter, the post master of such office will sell the same, and credit the proceeds of such sale in his quarterly accounts, in the usual manner.

5. Quarterly payments in advance may be made either at the mailing office or the office of delivery. When made at the mailing office, satisfactory evidence of such payment must be exhibited to the post master at the office of delivery.
