

TO THE AFFLICTED!

DR. L. J. CZAPKAY, M. D.,
(Late of the Hungarian Army, and Chief Physician of the Hospital of Pesth,)

HAS ESTABLISHED IN THIS CITY A

MEDICAL INSTITUTE,

For the treatment of Diseases of the

BRAIN, LUNGS, LIVER, STOMACH, KIDNEYS,
AND GENITO-URINARY ORGANS.

These last diseases the Doctor has been induced to add, in consequence of the daily evidence of the evils consequent upon the malpractice so generally pursued by advertising empirics, whose conduct exemplifies the truth that, "Man's inhumanity to man makes countless thousands mourn."

The Doctor's thorough knowledge of the principles of Physiology and Pathology, and the *modus operandi* of the agents embraced in our *Materia Medica*, is a guarantee of the assurance that all will be treated in accordance with the established principles of Medical Science, and in accordance with the improvements made therein. The gradual accumulation of valuable information since the days of Hypocrates, and the exclusion of such agents as have proved inert, have left the regular Practitioner the means wherewith to combat successfully the ills to which flesh is heir. Especially is this true in reference to that branch of the science to which cupidity has invited charlatantry, much to the detriment of the unfortunate and credulous. With a view to counteract the evils which flow from this source, the Doctor is happy to give the guarantee of a safe, speedy and effectual cure to all who seek his assistance, and complete immunity from evil after-consequences.

It often happens that the abuse of instinctive passion leads to fearful consequences, unless the aid of the Physician is made available to arrest these certain and ruinous results. Among the symptoms arising from this cause, the following may be enumerated:—Confusion of ideas, loss of memory, destruction of the nervous equilibrium, timidity and headache, loss of mental power, partial and complete dementia; these oftentimes terminating in death. For the amelioration of these symptoms, and the avoidance of so fearful a consequence, the Doctor offers his services, and guarantees in all cases perfect satisfaction.

In Dysentery, Diarrhoea, Rheumatic Affections, and other diseases incident to this climate, assurance is given of speedy relief. All consultations by letter, or otherwise, free. Address to

L. J. CZAPKAY, M. D.,

Medical Institute, Armory Hall Building,
Corner of Sacramento and Montgomery streets, San Francisco.
