

HALE'S KEROSENE

— OR, —

COAL OIL BURNER

Is now generally acknowledged to be
SUPERIOR TO ALL OTHERS

IN USE. A moment's examination will convince
any one of this fact.

The **ADJUSTABLE TUBE** — AND — **STATIONARY WICK**

Embodies a principle in the production of light which no other lamp possesses. The wick, being stationary, is fixed, when trimmed and ready to burn, so that the top of it reaches to **JUST THAT POINT** in the **SOLAR CAP** where the draft is perfect, and as a consequence

THE COMBUSTION IS COMPLETE!

It is a significant fact and one which all who propose to use the
COAL OIL LAMP

ought to know, that in **ALL** lamps where the wick is moved up to get the light, instead of being stationary and the tube sliding down off of it, as in **HALE'S**, the wick, when the light is all "on," is raised from one-quarter to three-eighths of an inch nearer the "solar cap" than it is in **HALE'S**; the consequence of which is, that the draft and combustion so necessary to produce a perfect light becomes deranged, and a portion of the oil escapes into the room, creating not only an offensive odor, but causing a great waste of burning material.

Another and a serious difficulty with all moveable wicks is, that they are inclined to **STICK IN THE TUBE**. Another is, that the spurs by which they are moved up frequently **THROW THEM UP UNEVENLY**, causing smoke before a proper amount of light is obtained. These difficulties are all obviated in

HALE'S STATIONARY WICK.

Recent advices from the Atlantic States apprise us of the fact "That there is no sale for any moveable wick burners where

HALE'S ADJUSTABLE TUBE

can be obtained." We wish also to call the attention of the public to the different kinds of **POOR COAL OILS** in the market. These cheap Oils have been shipped to this State to find a market, because the game has been "played out" where the article is known. We are in receipt by every arrival of a **PURE ARTICLE** of **KEROSENE** and **PHENOLINE**, which we **WARRANT** to be of the **VERY BEST QUALITY—WHITE AND LIMPID.**

Remember that **HALE'S LAMP** can be obtained only of us.
