

"THE PHŒNIX OF HARTFORD."

The PHŒNIX INSURANCE COMPANY OF HARTFORD is one of the prominent and leading insurance organizations in the United States, and is well and favorably known throughout the length and breadth of the land, as an institution of eminent ability and unrivaled business capacity. From far east Maine to the golden shores of California, and from the sea washed coast to the Northern Lakes, the Phœnix is acknowledged as a first class American Insurance Corporation.

The Phœnix Insurance Company was incorporated by the Legislature of Connecticut, under a perpetual charter, with a Capital of Two Hundred Thousand Dollars. Since that time, its Capital has been increased, from its earnings, to Four Hundred Thousand Dollars, or double its former Capital, which is pledged for the payment of fire losses solely. The Cash Assets of the Company at this time exceed Six Hundred and Eighty Thousand Dollars, and permission has been granted by the Legislature to increase the Capital at the option of the Company to *Two Million One Hundred Thousand Dollars*.

This Company does no Marine or Inland Navigation Insurance, and is therefore free from the calamities and disasters that have shipwrecked and ruined so many companies engaged in that branch of business, *our entire energies and resources being solely devoted to the business of Fire Insurance.*

The Phœnix Insurance Company has no debt or Bank accommodation to embarrass them, no "promises to pay" to afflict, the resources of the company being ample, and always available to meet every contingency that may arise.

Prompt Cash Payment of Losses is a feature peculiar to this Company, and entitles the *Phœnix* in a very marked manner to the patronage and favor of the mercantile community. No man has ever yet been asked to defer his claim a moment after due for want of means to respond, nor has any one on the Pacific slope been asked to accept other than United States Gold coin from us after his claim has been ascertained. The prompt adjustment and payment of losses has been made a *speciality* by this corporation, and it is our design and intention to continue it.

A glance at the eminent service and great public usefulness of this well tried and thoroughly tested Corporation may be obtained from a perusal of the following figures of losses paid:—
