CONTINUED.

PICOLLO PIANOFORTES.

We would call particular attention to these beautiful instruments from our own manufactory in Paris, and which we can confidently recommend as equal in quality to those of any other European manufacturer.

Piccollo Pianofortes are now in universal use on the continent of Europe, having completely taken the place of the old style of Square Pianos. They possess all the merits ever claimed for the Square Piano, with many advantages that are peculiar to themselves.

Our assortment comprises six different styles varying in price from \$275 to \$400 each.

Iron-framed Picollo Pianofortes.

These instruments are a "specialité" of our manufacture, are constructed with a special view to withstand the peculiar climate of the interior of California, and are warranted to stand any change of temperature. Price \$400 to \$450 each.

Claiming, as we do, the merit of having first successfully introduced and brought into general use here a perfect and reliable article of PICOLLO PIANOFORTES, we take great pleasure in referring to our numerous patrons who have purchased and are now using the instruments, throughout California, Oregon, the British Possessions and Mexico.

STODART PIANOFORTES.

We have had the exclusive agency for the sale of these celebrated Pianos for the past twelve years, and refer with confidence, as to their quality, to the many hundreds of instruments themselves now in use throughout the whole extent of the Pacific Coast. We offer them at the same prices at which they are sold at the manufacturers' warerooms in New York, thus saving to the purchasers here the cost of freight, insurance, interest and attendant charges. Prices range from \$240 to \$500 each.

FRENCH HARMONIUMS.

In connection with our manufactory of Pianofortes at Paris, we have established a manufactory of FRENCH HARMONIUMS, suitable for parlors, music halls, and churches. These instruments, like our Pianofortes, are all in rosewood cases, and are made with the improved "transposition attachment," which enables the performer, in voice accompaniments, to adapt the instrument to any particular "key," thus entirely obviating the necessity of any transposition of the music. Nine varieties \$100 to \$1,000 each.

We beg to call attention to the fact that the Harmoniums of our manufacture possess many valuable improvements not to be found in any other instruments of this description, among which is the peculiar disposition of the reeds. This improvement is based upon purely scientific principles, rendering the reeds doubly sensitive and much less liable to become deranged or get out of order.

For full description of Picollo Pianofortes and Harmoniums send for descriptive catalogues.

PRINCE & CO'S

Melodeons, Double reed School Organs and Organ Melodeons.

Being the exclusive agents for the sale of these celebrated instruments in California, we are prepared to furnish them at the catalogue prices, as sold at the warerooms of the manufacturer in the East. The assortment comprises twelve different styles of instruments, ranging from \$60 to \$425 each. Illustrated catalogues, with full description and price of each instrument annexed, will be furnished on application.
