

The firm of LOCKE & MONTAGUE, being now located in their new stores, Nos. 112 & 114 Battery street, between California and Pine, are prepared to offer greater inducements to their customers than ever before, having greatly increased their already extensive stock and enlarged their manufactory. They feel confident that they can compete with any manufacturing establishment of the kind in the United States. They have given great care and attention to their selections of the most improved patterns of Cooking Stoves and Ranges; and dealers may find at this establishment the now celebrated "Good Samaritan," "Harvest Queen," "Diamond Rock," "Chief Cook," and a host of other equally well known stoves, (which are now by the sheer force of merit, rapidly superseding the old stoves offered in this market, but which were out of date in the Eastern States at least ten years ago,) for which these gentlemen are exclusive agents for this coast. The agency of Moses Pond & Co's celebrated Boston Ranges is also established at this house. These superior Ranges are too well known throughout the United States to require comment here. A full supply is constantly kept on hand. Likewise, Magee's Hot Air Furnaces, Magee's Coal and Gas Burners, Parlor, Hall and Box Stoves in great variety. Dealers from all parts of the State will find it to their advantage to examine this extensive stock before purchasing elsewhere.

Messrs. L. & M. have, also, *Hansbrow's celebrated Patent Double Action, Suction and Force Pumps, which took the highest premium at the World's Fair, in London, in 1862, obtaining a Gold Medal, (the only one awarded) against three hundred and eight competitors.* Miners and Farmers will find in this Pump what has been long sought for in vain.

The importations of Messrs. L. & M. are direct from England, France and Eastern ports, whereby they are enabled to furnish goods of the best quality, at the lowest rates.
