

MR. ROBERT MAYERS having had thirty years' experience in his particular line of business, comes before the public with the self-assurance that his stock of goods in store, in variety of styles, assortment, and richness of material, is unexcelled by any offered by any other House on the Pacific coast.

Mr. Mayers having done business in San Francisco since the year 1853, has acquired a thorough knowledge of the wants of this community for articles of goods in his line, and his selections are made accordingly.

His importations are made direct from leading Houses in London, Paris, and New York, and his facilities such for supplying the market demand, that parties desiring either a rich or fancy article of goods will save both time and money by making their purchases at his store.

His list of varieties comprises both the ornamental and useful, including everything calculated to decorate the house or adorn the person.

His stock of American Watches are, beyond doubt, the most useful, as well as ornamental, of any time-pieces now in use.

His Papier Mache Goods and Wares are unequaled either in quality, elegance, or beauty of design.

His Polka Accordeons are of the finest and strongest tone of any made, and are from the celebrated makers, Busson and Alexander, of Paris. Also Parian Vases, Bisquet and Dresden China, Glass Shades for fine clocks, Wax Flowers, Ladies and Gents' Dressing Cases, Chess Boards and Men, Writing Desks and Folios, Cabinets and Work Boxes, Music Boxes, and Guitars and Violins, are among the many thousand articles too numerous to be mentioned by us, including every kind and description of Toys and Fancy articles known to a Fancy Goods Store.

Mr. Mayers having imported his stock of Goods now in store before the advance in duties, is enabled to retail the same at wholesale prices. It will do no harm to call and see.
