

The large and extensive *Willow Ware Establishment* of Messrs. THURNAUER & ZINN deserves more than a passing notice, both as regards the immense stock of Toys and Willow Ware to be found in endless variety therein, and also from the fact that their house in San Francisco is but one of a number of similar houses, immediately connected, and located in a similar number of the leading commercial capitals of the States and Europe. They are composed as follows : Samuel Zinn & Co., Bavaria ; Chas. Zinn & Co., New York ; Sigmund Zinn, Victoria ; Joseph Thurnauer, Paris ; Zinn & Berolzheimer, Bavaria ; and Thurnauer & Zinn, San Francisco.

The oldest of these houses is that of Samuel Zinn & Co., Bavaria, and was established by Mr. B. Zinn, father of the present proprietor, nearly one century ago.

The proprietors of the San Francisco House, after an experience of fourteen years in conducting their business in the city of New York, came to San Francisco, and in 1858 established their business in its present location.

During their intercourse with the public here, as their business progressed from year to year, Messrs. Thurnauer & Zinn have acquired a complete and thorough knowledge of the peculiar wants of this community, as exhibited by them from time to time in their selections of particular kinds and classes of Goods ; and, to meet the countless varied demands for articles in their line, including wares of every conceivable shape into which willow can be formed, they have increased their facilities and multiplied their stock accordingly.

We will not attempt to give a list of the innumerable and multifarious articles, from the full-sized Chairs, Sofas, &c., down to the Flower Basket and Child's Hobby Horse, or Jenny Lind Work Table, but refer you, for particulars in detail, to their advertisement on the page opposite ; and, on behalf of the gentlemanly proprietors, permit us to invite you to call at their establishment and inspect their beautiful assortment of goods, feeling assured that you will be both pleased and benefitted thereby.
