

The firm of MESSRS. KENNY & ALEXANDER was established May 1, 1861. Mr. Kenny himself is one of the oldest Booksellers on the Pacific Coast, and, beyond question, has the most thorough experience in the selecting of Law Books of any dealer in the State, of which, including the latest Law Publications, their House is constantly receiving by steamer direct from the East, and in variety exceeding those of any establishment in the city.

Prominent in their Catalogue of Books, we would notice their Mining Stock Books. This department they have made a speciality, and are prepared to manufacture to order, and on short notice, all kinds of Mining Stock Books, and forward the same by express to any part of the Pacific States or Territories.

Also, their School Books comprise every variety and kind in use. And last, but not least, their large stock of Stationery embraces every kind and quality to be found in a wholesale or retail stationery store.

---

Messrs. ALLEN & SPIER established their business in this city as early as the year 1853, and by a constant study of the wants of the community for Book and Stationery Merchandise, and a close application personally to their business, they have built up a trade, alike complimentary to their abilities and industry, and profitable to themselves. Their importations are made direct from the publishers and manufacturers in Eastern cities, which gives to them facilities enjoyed by few in the Trade, and enables them to supply to their customers a superior article in their line, and at moderate prices.

In addition to a general assortment of Books and Stationery, their stock comprises also in great variety Day and Sunday School Books, Law Books, Blank Books, and miscellaneous Books, all of which they offer at exceedingly low prices, and in quantities to suit. Dealers and the Trade generally will do well to call and examine their stock before making their purchases.
