

The well-known firm of MARTIN L. HAAS & Co. has been established in this City for upwards of three years, and during that time have so enlarged their business, and extended their facilities, as to fully keep pace with the constant growing wants of this community, for either a fancy or staple article of Paper, Blank Book or Stationery Merchandise ; to which we would add a beautiful assortment of Playing Cards, together with a superior quality of Gold Pens ; also Wrapping Paper of every grade, shade and quality, and in any quantity to suit.

Their Goods are selected with great care in Eastern and European markets in person, and with a view to the wants of the trade here. To this end they have a resident partner in New York, who makes annual trips to Europe, and under whose personal supervision their purchases of Goods are made, thus giving to their customers the benefit of a system, whereby they can obtain a better article in their line, and at more reasonable prices than can be afforded by Houses who replenish their stock in the usual way. In connection with the foregoing, we would also notice that Mr. Martin L. Haas, whose name stands most prominent in their card, has been engaged in the Book and Stationery Business for a period rising of ten years, and his well-known, practical knowledge and long established reputation in the business is, of itself, sufficient to give importance, as well as character, to the business operations of the firm with which he is associated.

To the Trade and Public at large we would commend this House as offering especial inducements, in regard to the quality and prices of their goods ; also, to their facilities in filling orders for every class and description of goods in their line with dispatch. Give them a call, and judge for yourselves.
