HUCKS & LAW

H. & L. AXEE-GREASE.

THIS EXTRAORDINARY LUBRICATING COMPOUND

Is produced by chemical combination of suitable oily substances, purified by distillation, and

EFFECTUALLY
Freed from resinous or pitchy matter which attaches to all oils, more or less, in their natural or unrefined state. In operation, the PATENT GREASE works free from Comb, or Gum;

PREVENTS

Friction by keeping the heaviest bearings in a soft, oily state to the last; and, as its consistency is not altered by exposure to the hottest sun or coldest frost, (its liquifying point being 200 degrees) it follows that, on axles which have a tendency to become hot from too heavy abrasion, etc., the anti-friction will adhere to and keep them cool, when other substances would run off and become dry; thus the evil known as

"FIRING OF WHEELS,"

is by its use effectually prevented.

The Proprietors will guarantee one application of their PATENT GREASE to carry the heaviest loaded team from 300 to 500 miles without requiring to be greased on the road.

N. B.—We respectfully caution our friends to ask for HUCKS & LAMBERT'S AXLE GREASE, as there are several spurious imitations in the market, and see that the trade-mark, H. & L., is on the red cover of the package.

DEPOT, 320 JACKSON STREET. HUCKS & LAMBERT.
