Population San Francisco, 1871--72.

THE following figures, compiled from reliable data and from careful investigations during the progress of the canvass for the San Francisco Directory for the present year, is published as an approximation to the present population of this city; and in directing attention thereto, the compiler feels assured that an intelligent and careful examination of the data upon which they are based, will fully sustain the aggregates derived therefrom.

White males over twenty-one.....	57,019
“ Females over eighteen, estimated.....	36,306
“ Males under twenty-one, estimated.....	35,760
“ Females under eighteen, estimated.....	30,579
“ Males, names refused, and foreigners not taken in the canvass, estimated.....	2,100
Chinese, male and female	10,018
Colored, male and female.....	1,500

Total permanent population.....	173,276
To which should be added a large element of our population known as “floating,” which consists of: 1st. Transient boarders, etc., at hotels, boarding-houses, etc. 2d. Soldiers at the fortifications in the harbor. 3d. Persons engaged in navigating the bay, who claim this city as their residence. 4th. Inmates of Alms House, Hospitals, and other charitable institutions, County Jail, etc. 5th. A large number of persons who have no permanent place of abode, together amounting to about.....	5,000

Total population, March 1st, 1872.....	178,276
----------------------------------------	---------

The estimate of the males over 21 in the above table is based upon the list of names contained in the present volume, as follows:—The number of references in the register of names is 64,294, of which 55,819 are male residents of this city. These figures are exclusive of a numerous list of names included in the Business Directory and the Appendix, containing the names of officers of Societies, Incorporations, etc., not obtained in the regular canvass, estimated at 1,200, making a total of 57,019. The two latter named departments of the Directory are compiled from information collected just previous to the publication of the work, and include many names not to be found in the regular list.

The number of females is estimated at 36,300, upon the basis of the returns of the Federal Census of 1870. The number of females of all ages enumerated, as published in this city, amounts to 61,577, of which 23,261 are under 15 years. According to the average of the Census throughout the
