LIFE RESTORER

Or, BAUNSCHEIDT'S LEBENSWECKER OLEUM.

To those suffering from disease, of whatever nature, even where it is considered past cure, is this card intended. Under this treatment all deadly and diseased matter is thoroughly eradicated from the system, through the pores and other natural channels; the blood is made perfectly pure, and through the blood, only, can the system be restored to health and vigor. By this process perfect health may be maintained as long as physical matter can be kept together. The treatment is simple, safe and sure. Operations are performed with perfect success upon all, from the infant of a few days only to those of old age, the effect of the Oil being manifested only when and where disease exists.

☞ No drugs nor medicines of any kind are given with this treatment, but instead, good, nourishing food. ☞ Living testimonials furnished all who visit me. Complete instructions and materials furnished those who desire to treat themselves or others, thus enabling every father and mother to become the "doctor" of their own family. I import all materials direct, and warrant them to be the genuine. Sent to all parts on application. Consultations free of charge.
