"But for the 'Smoke Ball' Our Child Would Have Died."

SAN JOSE, March 26, 1881.

CARBOLIC SMOKE BALL CO.—GENTLEMEN: It is with great pleasure that we testify to the merits of your medicine, the "SMOKE BALL." We purchased one of your Smoke Balls a short time ago, and used it with great success for colds in the head. Consider it the best remedy we ever had in our family. Not long since our little girl had a severe attack of membranous croup, and if it had not been for the "Smoke Ball" she would have died. The first application gave instant relief, and a few applications completely cured her. We consider the "Smoke Ball" a sure cure for croup. Gratefully yours,

No. 80 W. San Fernando street, San Jose.
