

ST. IGNATIUS COLLEGE,

Van Ness Avenue, Between Hayes and Grove.

SAN FRANCISCO, CAL.

THIS Institution, conducted by the Fathers of the Society of Jesus, was opened for the reception of students on the 15th of October, 1855. On the 30th of April, 1859, it was incorporated and empowered to confer degrees and academical honors in all the learned professions, and to exercise all the rights and privileges common to any other literary institution in the United States. The design of this Institution is to give a thorough

ENGLISH, CLASSICAL, MATHEMATICAL and PHILOSOPHICAL EDUCATION.

IT IS INTENDED FOR DAY SCHOLARS ONLY.

The Course of Studies embraces the Doctrine and Evidences of the Catholic Religion; the Greek, Latin and English Languages, Poetry, Rhetoric, Elocution, History, Geography, Arithmetic, Bookkeeping, Mathematics, Chemistry, Mental, Moral and Natural Philosophy.

Besides the Classical, there is a Preparatory and Elementary Department for the younger students. Its object is to qualify the pupil for the higher studies.

This Institution, provided with a full staff of Professors, presents the highest advantages for the mental and moral training of the students.

Besides the required Reception Rooms and Offices, several Libraries and Debating Halls, distinct playgrounds with covered walks and porticos for the larger and smaller students, the buildings contain a full complement of very capacious school rooms, well lighted and ventilated, and furnished with the most approved modern conveniences. There is also a large Chapel for Religious Exercises, and a College Hall with spacious platform and stage suitably furnished and arranged for Scholastic Exhibitions, Dramatic Representations, Lectures and other public exercises.

The Scientific Department contains lecture rooms for Physics and Chemistry, a Chemical Laboratory and an Extensive Cabinet of Physics, rooms for qualitative and quantitative analysis, engine rooms with magneto-electric machines, battery rooms, complete telegraphic stations, rooms for preparations, balances, spectroscopic studies and other scientific experiments and investigations, Museum of Mineralogy, Geology and choice collections of natural objects and curiosities of different kinds, and it is furnished with a very large and choice collection of Philosophical and Chemical Apparatus ordered from the best constructors of Europe and America, and with all that is necessary for lecture demonstrations and experiments, for private study, and the most complete and delicate chemical analysis and manipulations.

By frequent additions of whatever can be supplied by the best modern inventions, both at home and abroad, this Department has attained a very high degree of completeness and efficiency well calculated to afford to advance students a most valuable opportunity of acquiring a thorough scientific training and education.

STUDENTS ARE RECEIVED AT ANY TIME DURING THE SEASON
FROM JULY TO MAY.

The Institution is Open to the Public, and Visitors and Always Welcome.

For Further Information Apply to the President.
