

▲ ▲ HIGHLAND ▲ SPRINGS ▲ ▲

LAKE COUNTY, CAL.

J. CRAIG, Proprietor

Is situated in the South Western portion of Lake County, California, seven miles south of Clear Lake, at an elevation of about 1700 feet above sea level. There are thirty odd mineral springs varying in temperature from ice cold to 90° Fahrenheit, the waters of which are different and comprise almost all known mineral waters.

The springs are within a radius of a few hundred yards, making them all easy of access from the hotel, and are situated at the upper end of Big Valley, at the base of the Coast Range Mountains. To the north and east there is an almost level stretch to Clear Lake, while on the south and west the mountains reach an altitude of 3,000 feet or more.

The hotel, cottages, baths and springs are situate on the banks of Highland Creek, upon a pretty, level plateau covered with oak, pine and other shade trees in unlimited number. There is also an abundance of pure, fresh water brought upon the grounds in pipes from the adjacent mountains.

There has been built during the past winter a large and commodious hotel and one of the finest dining rooms north of San Francisco. The grounds have been thoroughly sewered, and every precaution taken to make the sanitary conditions as nearly perfect as possible.

The rooms in the new hotel are large, airy and light, hard finished and equipped with the latest and best of furnishing, and every facility secured to make the place first-class in all its appointments.

The climate is mild and pleasant, free from fog and disagreeable winds, and cannot be surpassed anywhere in California, if in the world.

One of the many great advantages of this resort is its central location and easy access, being only twelve miles from Pieta, on the San Francisco and North Pacific Railroad, from which is one of the best roads in the State, passing through a picturesque and beautiful country, so that the ride is a pleasure instead of a hardship.

The stage service on this route is first-class in all its appointments, and equal to any on the Pacific Coast. Private conveyances can be had from the Springs upon application for persons not desiring to travel by stage.

From the Springs trips to and return are made with ease in a day to all the principal springs and resorts in Lake County, while the trip to and upon Clear Lake is one of the grandest and most beautiful in the United States, comparing favorably with the trips upon any of the renowned lakes of Europe.

Guests at this resort can take outings with ease and comfort to all points of interest in Lake County, while trout fishing, deer hunting and bird shooting can be had to the heart's content in the immediate neighborhood. There is connected with the resort a first-class livery stable, so that a trip here means every facility and convenience for seeing Lake County, America's greatest Sanitarium, in all its beauty and magnificence.

With the new improvements just completed, the comforts and accommodations are equal to any resort in the State, and it is the purpose of the management to so conduct the same as to make it

●●●●THE RESORT OF NORTHERN CALIFORNIA●●●●

for both **health** and **pleasure** seekers, a safe and reasonable place for persons to send their families for summer or winter, with assurance that every attention and care will be shown them.

We make our table a special feature. It is always supplied with the best that the market affords, and upon that point we invite comparison and criticism.

We refer with confidence to all persons who have been guests of this resort during the past two years.

Other Improvements.—There has also, within the last year, been completed a fine large dancing hall and opera house; also a boating lake, which is well stocked with choice fish. There is also a general merchandise store for the accommodation of guests and campers.

The Springs can be reached from any point on the Southern Pacific route by way of Calistoga, thence by stage direct from Calistoga to the Springs. Also by the Donahue route from San Francisco by way of Pieta, thence by stage direct to the Springs.

For routes and distances, examine map. The road over which parties now travel from Pieta, has recently been built at a cost of upwards of thirty thousand dollars, is one of the prettiest turnpikes on the Pacific Coast, the grade on which in no place exceeds six feet in one hundred. The stage lines are the best equipped and handled lines in existence. The scenery, varied and pleasant.

Passengers by way of the Donahue route, from San Francisco, only have about six hours' travel to reach the Springs.
