

"VAN VROOM" Painless Dentists

J. A. KLEISER, D. D. S.

Telephone West 3492

Hours: 9 to 9 Daily, Sunday 9 to 2

**The Most Skillful Dentists in all San Francisco
1507 FILLMORE STREET**

OUR OPERATORS

Our operators are all graduate licensed dentists of from 7 to 15 years of experience and masters of painless dentistry. They have been selected for their ability and their standing in the profession; possessing the highest awards and diplomas to be awarded in the United States.

We guarantee to give you the best dental work to be obtained in San Francisco or on the coast at **one-half** the fees charged by other high-class dentists. Ask your neighbor. Call and send your friends to VAN VROOM, the Painless dentists at O'Farrell and Fillmore Sts., San Francisco.

Our office is open from 9 in the morning till 9 at night and from 9 to 2:30 Sundays, giving you an opportunity to call at your own convenience.

Lady attendants in the office continuously.

(Do not be misled by unscrupulous persons who imitate our electrical display and advertising.) **VAN VROOM.**

FILLINGS—You have a tooth which is starting to decay. **STOP!** Have it filled **to-day**. If you put it off the cavity only grows larger and larger. What then? You have a tooth which has lost its strength and vitality and you must go to the expense of a crown or have the tooth extracted. When we insert a filling in your tooth, we back that filling with a guarantee that it will stay ten years. If it is the fear of high prices that makes you hesitate, wait no longer as we charge only one-half what other first class dentists do. **VAN VROOM.**

CROWNS

To crown a tooth properly, it is first necessary to have a good root to build on. Any tooth which is badly broken down may be repaired, replaced and made useful by the means of either a gold, porcelain, or enamel crown. Every tooth in your mouth is necessary for the proper mastication of your food and maintenance of your health. Therefore you should stop and consider, counting the money spent in the proper kind of dental work as an investment tending toward the preservation of your health and lengthening of your life. **"VAN VROOM."**

TESTIMONIALS

STEAMER PRESIDENT,

July 22nd, 1907.

Those crowns you put on my teeth when I was in San Francisco four years ago are still O. K. and I am coming in as soon as we get back to San Francisco and have a bridge made. When I tell friends of mine that you do work without pain they hardly believe me, but I am glad to say that I found your work to be without pain and perfect.

Yours,

G. S. FISHER.

MRS. MOORE WRITES

SAN FRANCISCO, May 1st, 1907.

DEAR DOCTOR:

Your Plate Specialist made me a set of teeth last year and I have had no trouble whatever with them. My health has improved wonderfully, as before they were made I was unable to eat any but soft foods or else punish my stomach with pieces of meat, etc., my teeth were so bad. But your specialist fixed me up so that I can now eat beefsteak and bite corn off the cob.

O'Farrell and Fillmore
