INVENTIONS—designed, developed and perfected by mechanical experts of more than twenty years' experience.

Inventors are **WELCOME** to call at our office and have us pass on the possibilities of developing their ideas. The inventor incurs **NO OBLIGATION IN CONSULTING US REGARDING HIS IDEAS**. We are able to give the facts and information that will both save the inventor money, and also help make the invention more salable.

INVENTORS who have **PATENTS** to sell will find that our system of marketing inventions is the only practical way to place ideas before the proper purchasers. If an invention is salable, we can sell it; but if not, no one can force an unsalable issue. Write, or call in person and receive a copy of our very liberal sales contract.

THE CITY DIRECTORY

places the city on the map and is its only representative to the world beyond its own gates.

It is the city's catalog of business and represents the city, its citizens and institutions in every corner of these United States.

It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.
