

We appreciate the following letter from a Palo Alto patron:

Dear Sirs: We changed to your laundry because so many things have been lost, exchanged or destroyed by acids and chemicals in other laundries, and we are having much better results from your methods, and the work is excellent. Also we are now sending all of our wash to you instead of having to keep out things we could not afford to risk losing or having ruined. It is a great relief to have these properly cared for.
