

COPSEY MINERAL SPRINGS

These Springs, justly celebrated, are situated 33 miles S. E. of Lakeport, 15 miles S. of Lower Lake, 5 miles N. of Harbin Hot Sulphur Springs, 24 miles N. of Calistoga, and 5 miles N. W. of Seigler Springs. They can therefore be approached from any direction, and easily visited from any of the other places of resort. The surrounding scenery is romantic in the extreme, the mountains abound in game, while a fine trout stream is near at hand. To the pleasure-seeker and traveller, therefore, the inducements to visit us are almost as great as to those desiring relief from suffering.

And the thousand and one diseases which have their origin in the

IMPURITY OF THE BLOOD.

—♦♦♦—

Our references are innumerable ; we will however append but one certificate :

LOCKFORD, San Joaquin Co., Cal., April 10, 1873.

This is to certify, that I have been troubled with the Gravel for years, and have many times during that period been obliged to resort to the use of the "Catheter." My symptoms were of an aggravated character. My back pained me so acutely that I could scarcely move, while my legs were covered with great sores, which were excruciatingly painful. In this condition I visited COPSEY SPRING, remained two weeks, and have never been troubled since. I now consider myself a sound man. My wife also accompanied me on my visit ; she had been afflicted with Scrofula and Dyspepsia for over 30 years. At the termination of my visit, she accompanied me home, *entirely recovered.* GEO. REASONER.

Mr. Reasoner is a clergyman of the M. E. Church, and is well known.

—♦♦♦—

Mr. Copsey, the proprietor of these Springs, on account of his age, desires either to lease or sell the premises.

A cordial invitation is extended to all, to give the Springs a trial.

C. C. COPSEY, Proprietor.
