

THE CLIMAX BEE-HIVE

GATES' PATENT.

THE LATEST AND THE BEST PORTABLE BEE-HIVE IN EXISTENCE.

This Hive was patented in 1873, and is so constructed that the honey, comb, or bee-bread can be removed from any part of the hive without molesting the bees; or swarms can be removed from other hives, or even from old trees or boxes, to this hive, with honey, comb and bee-bread placed therein, sufficient to start them in business at once.

It is thoroughly ventilated and does not sweat the bees. There is a MOTH-CATCHER attached, which IS SURE DEATH TO ALL MILLERS OR MOTHS THAT COME AROUND THE HIVE.

These hives, with bees enclosed, can be removed to any distance with safety.

A Sample Hive can be seen at Messrs. SHAW & HOADLEY'S Express Office, Cloverdale.

Farm and Individual Rights, with Sample Hive, Ten Dollars. County and Town Rights reasonable. Also, Bees for Sale.

BEES TRANSFERRED FROM OLD TO NEW HIVES FREE OF CHARGE.

All those interested in raising bees can make money by using this hive.

ADDRESS,

RICHARD COOPER, Agent,

CLOVERDALE, Sonoma Co., Cal.
