

# W. I. TUSTIN'S PATENT First Premium Wind-Mills and Horse-Powers.

The Simplicity and Perfection of these Machines is the result of 25 years' experience in California.

**ECONOMY  
WIND-MILL.**

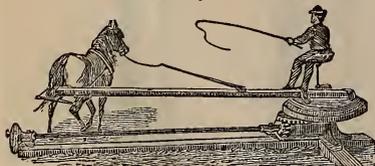

The Farmer can set these Machines up and put them in successful operation without the aid of skilled and expensive labor.

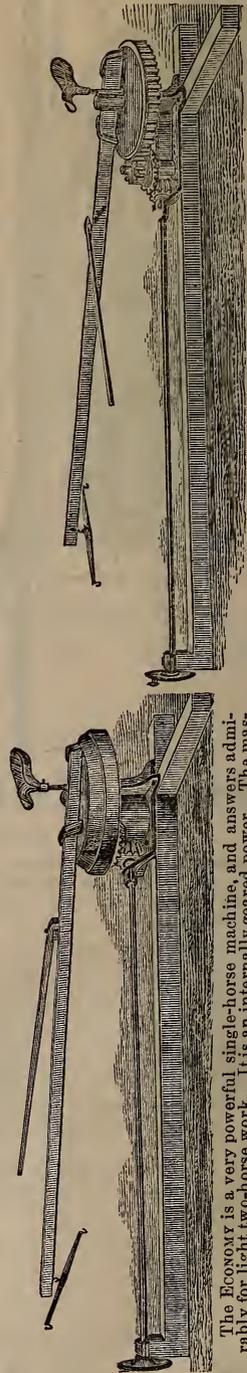

Tanks, Pumps, Piping, and every variety of machinery and goods connected with this line of business, furnished to order, at the Lowest Market Prices.

Patented June 11th, 1872.

**The Economy at Work.**

These powers are designed for all purposes, such as pumping water for irrigation, watering stock, chopping feed, churning, sawing wood, running machinery for manufacturing, mechanical or other purposes.

The Eclipse is a single-horse machine, designed for light work. It is neat, compact, very durable, and has given perfect satisfaction to all who have used it. It is double-gear; Tumbling shaft makes 55 revolutions per minute. We also manufacture a light four-horse power—THE MONITOR.

The Economy is a very powerful single-horse machine, and answers admirably for light two-horse work. It is an internally geared power. The master or driving-wheel covers the principal working parts, rendering it perfectly safe, and much more durable than the ordinary external gearing so commonly used in horse-powers. The tumbling shaft makes 50 revolutions per minute.

**ALL WORK GUARANTEED. SEND FOR DESCRIPTIVE CIRCULARS AND PRICE LISTS.**
