The above rates are for an initial period of 3 minutes, except those preceded by an asterisk (*) which are for an initial period of 5 minutes.

For information regarding the method of placing toll calls, see page III of this Directory.

General Information
For the Guidance of Telephone Users

Good Service depends largely upon the measure of co-operation afforded the Telephone Company by the public. The observance of the following suggestions and instructions will greatly facilitate the successful operation of the service from all standpoints.

USE OF THE TELEPHONE

Speak directly into the mouthpiece of the telephone with your lips close to it.

Speak slowly and distinctly in your ordinary tone of voice.

Consult the telephone directory to obtain the number with which you desire to be connected.

If the number is not found in the directory, ask for "Information" and when obtained make a memorandum of the number for future reference on the page of the directory provided for that purpose.

Telephone numbers should be given to the operator as shown in the following examples:

1273—say "One Two (pause) Seven Three."
4418-J—say "Four Four (pause) One Eight J."
2100—say "Two One (pause) Hundred."
3000—say "Three Thousand."

Listen to the operator's repetition of the number and acknowledge it, or if the operator does not repeat the number correctly, give the number again.

After calling a number, remain with the receiver at your ear until the called number answers or until a report is received from the operator, as "(called number) does not answer" or "The line is busy," etc. At some exchanges the Audible Busy Signal takes the place of the operator saying "The line is busy". Reports indicating that the line is busy do not necessarily mean that the particular telephone called is busy, but may indicate that some telephone on the same line is in use.

If necessary to recall the operator for any reason, move the receiver hook slowly up and down until the operator answers. Do not move the hook rapidly.

When your bell rings, answer it promptly for if a number called does not answer within a reasonable time the operator will report, "(called number) does not answer." Do not remove the receiver from the hook until the bell has stopped ringing. When answering, do not say "Hello," but give your name, as for example, "Smith & Company, Mr. White speaking."

When you are through talking, say "Good-bye," so that the other party may know the conversation is finished, then replace the receiver on the hook.

TOLL SERVICE

Station-to-Station Calls—A Station-to-Station call is one on which the calling party DOES NOT SPECIFY A PARTICULAR PERSON to be reached but gives only the number of the telephone station desired or the name and address (or the name only, if the address is not known) of the subscriber under which the telephone is listed. Station-to-Station service is available to all points. A charge is made if connection is completed to the called number.

The charges for Station-to-Station calls cannot be reversed, that is, collected from the called station. Calls asking for connection with a specific station on a private branch exchange will not be completed as Station-to-Station calls but can be completed at the Person-to-Person rate.

To make a Station-to-Station call to a point to which "Number Service" is available (such points are indicated on page ii), give the name of the exchange and telephone number desired to the first operator who answers and remain with the receiver at your ear until the called station answers or until the operator reports. Such calls will be accepted by called number only and if the called number is not in the directory, it may be obtained by calling "Information."

To make a Station-to-Station call to a point to which "Number Service" is not given, ask for "Long Distance" and when "Long Distance" answers say: "This is a Station-to-Station call" and then give your telephone number and name, followed by the name of the exchange and telephone number desired, and remain with the receiver at your ear until the operator indicates that you may hang up the receiver.

Person-to-Person Calls—A Person-to-Person call is one on which the calling party specifies a particular person to be reached at the called place, or a particular station on a private branch exchange. Person-to-Person service is available to all points, excepting those to which "Number Service" is furnished exclusively. Under certain conditions, described hereinafter under "Report Charges," a partial charge will be made where it is impossible to establish communication on a Person-to-Person call.

To make a Person-to-Person call, ask for "Long Distance," and when the long distance operator answers say: "This is a Person-to-Person call" and then give the details of your call in the following order:

1. The telephone number from which the call is made and the name of the person desiring to talk.

2. The name of the city or town (and state) in which the desired person is located.

3. The telephone number desired, if known; if the telephone number is not known, name and address (or the name only, if the address is not known) of the subscriber under which the telephone is listed.
