

"Wait a Minute"

ONE of the high lights in the code for getting the most out of your telephone service is, "Try to be ready to talk when you make your call."

Sometimes a business man, under press of work, asks his secretary or private branch exchange attendant to get such-and-such a man. Then he waits until the man is actually on the line before he even lifts a receiver.

This practice often irritates the called person. Few like to be told to "wait a minute."

If you believe in letting the telephone serve your interests fully, may we suggest that you be ready to talk when you place a call.

*Modern telephone service is swift; it
is to your advantage to help
us make it swifter*
