AS SHE TYPES, COPIES APPEAR  
AT MANY POINTS AT ONCE

A typist in one city, on a Teletypewriter, records an order, letter, bill or memorandum.

As her fingers touch the keys of her instrument, those exact letters appear simultaneously in other offices in the same building or in distant cities.

Such is the Teletypewriter, a new aid to modern business.

Office, plant, warehouse, all can be tied together by the Teletypewriter.
