In seven large cities on the Pacific Coast, telephone customers ask "Information" for numbers approximately 242,000 times every day. And two out of five of those requests are for numbers that are right at hand in the telephone directory. It takes hundreds of skilled operators to look up these thousands of numbers—it ties up large amounts of telephone equipment. You can help us to make this equipment go further. You can help us to serve you by calling "Information" only when you do not find the number listed in the telephone directory.

If you forget the name of a store—you can find it quickly by looking for the address under its business classification in the Yellow Pages.

Please—
**DON'T "HANG UP"
 TOO SOON**

Sometimes people place telephone calls and do not give the called person sufficient time to answer.

Wait a few seconds longer — perhaps the person you are calling is almost there!
