

# ... The CHIROPRACTORS

## who find out through X-RAY

Dr. Geo. R. Smith  
Res. Ph. 3-4053

Dr. E. I. DuFrasne

You must accurately determine the cause before you can remedy the condition, and that is what X-Ray Chiropractic does. It definitely locates the cause.

Our office is provided with only the most modern X-Ray equipment, not just a fluoroscopic machine that creates an image to be studied only when the patient is present, but one that makes a permanent film record of your condition, thus enabling us not only to make an accurate analysis but a careful study of your progress while under treatment.

PHONE  
2-3338

The X-Ray also enables you to understand your own condition, after a simple explanation, and to make a study of your case for yourself. Years of experience are back of our chiropractic adjustments PLUS the fact that we have kept thoroughly and completely in touch with all new developments in the field of chiropractic research.

It is significant that many patients have come to us as a last resource. They have tried all the other methods of restoring their health, and it is upon our success in handling such cases that we say to you, "Do not despair until we have had the opportunity of discussing your case with you".

We assure you that you will not be accepted as a patient unless we conscientiously feel that we can actually accomplish satisfactory results. Reasonable fees and gentle treatments combine to make our adjustments an agreeable way to better health.

# X-RAY A LABORATORY AND EXAMINATIONS

Millions of Dollars of Research  
For A Few Dollars

That's what this offer means to you! An examination that explores your body from head to foot, inside and out, by the most advanced precision instruments known to science.

### WHAT YOU SEE

You can depend on our X-Ray and other precision instruments. Eliminate uncertainties and guess work. The only sensible way to tackle the problem of your health is by first having a complete examination. No short-cuts, no half-way measures... a truly COMPLETE examination that may mean a saving of hundreds of dollars to you.

## OUR STANDARD \$10.00 EXAMINATION

### 1st Day

1. Case history.
2. Blood pressure and pulse rate.
3. Circulatory function test of heart and arteries.
4. Thorough physical examination.
5. Spine, bones, joints.
6. Sinus Transillumination.
7. X-Ray Fluoroscopy of heart and lungs.
8. Barium Meal and X-Ray Fluoroscopy of the stomach.
9. Electro Heartometer (Heart Graph).

### 2nd Day

10. Urinalysis.
11. Blood hemoglobin estimation.
12. Examination of eyes.
13. Nerves and reflexes.
14. X-Ray Fluoroscopy of colon and appendix 24 hours after taking Barium Meal. (This usually costs not less than \$3.00 alone.)
15. Examination of findings and advice as to how the cause of your condition can be corrected.
