Telephone men and women recognize
the significance and the importance of
their service to you. You can depend
upon them always to do their best to get
your message through.

Telephone men in all parts of the Bell
System have had long experience in
working together. Tools, equipment,
methods of tackling the job and the
"language of the business" are the same
north or south, east or west. This nation-
wide unity of method and spirit means a
telephone service of the utmost depend-
ability.
