KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

QUICK BRASS CLEANER

You can clean copper and brass instantly by rubbing with a mixture of vinegar and salt. The finish won't last as long as with regular metal polish, but the mixture does a fine job.
