How to make
good telephone service
even better....

You'll save time if you
look up numbers before you call

Have you ever
had the feeling that you're not quite sure of a familiar telephone number you're about to call?
Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is
it 3189? The best way to settle it is to look up numbers before you call.
You'll save time—and avoid the delay and embarrassment of having a stranger
answer if your memory tricks you into getting an incorrect number.
