NEWSPAPER FIREWOOD

To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

The Yellow Pages save you time.

FOR BEST RESULTS

WITH YOUR TELEPHONE

please...

Make sure of the number.

If in doubt consult the
Telephone Directory.

Speak with lips close to
the mouthpiece, using
your natural tone of voice.

And give the called person
TIME to answer!

Thank You!

PLEASE LISTEN

FOR THE DIAL TONE

BEFORE DIALING

That "dial tone," a steady
hum, is the signal that the
equipment is ready to receive
a call. It corresponds to an
operator's "Number, please."

The Pacific Telephone and Telegraph Company

When you want to telephone

LISTEN FOR THE 'DIAL TONE'

—dial carefully—turn the dial all the way and
then let it go back to position naturally, without
forcing. These simple steps enable you to dial
telephone numbers speedily and with precision.
