In these busy days when saving time is so important, more and more telephone users are following the thoughtful way of answering the telephone: "Harry Smith speaking." Such an introduction establishes identity, saves time and makes a good impression.

KEEP LIGHT FROM MILK
Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

BAKERS' SPECIAL
To keep cake fillings from soaking into cake, sprinkle layers lightly with powdered sugar before spreading on filling.
